

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION**

Washington, DC 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2018

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 0-25150

STRATTEC SECURITY CORPORATION

(Exact Name of Registrant as Specified in Its Charter)

Wisconsin
(State of Incorporation)

39-1804239
(I.R.S. Employer Identification No.)

3333 West Good Hope Road, Milwaukee, WI 53209
(Address of Principal Executive Offices)

(414) 247-3333
(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. YES NO

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). YES NO

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act. (Check one):

Large Accelerated filer
Non-accelerated filer
Emerging growth company

Accelerated filer
Smaller Reporting Company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). YES NO

Indicate the number of shares outstanding of each of the issuer's classes of common stock as of the latest practicable date.

Common stock, par value \$0.01 per share: 3,738,357 shares outstanding as of October 1, 2018 (which number includes all restricted shares previously awarded that have not vested as of such date).

PROSPECTIVE INFORMATION

A number of the matters and subject areas discussed in this Form 10-Q contain “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. These statements may be identified by the use of forward-looking words or phrases such as “anticipate,” “believe,” “would,” “expect,” “intend,” “may,” “planned,” “potential,” “should,” “will,” and “could,” or the negative of these terms or words of similar meaning. These include statements regarding expected future financial results, product offerings, global expansion, liquidity needs, financing ability, planned capital expenditures, management’s or the Company’s expectations and beliefs, and similar matters discussed in this Form 10-Q. The discussion of such matters and subject areas contained herein is qualified by the inherent risks and uncertainties surrounding future expectations generally, and also may materially differ from the Company’s actual future experience.

The Company’s business, operations and financial performance are subject to certain risks and uncertainties, which could result in material differences in actual results from the Company’s current expectations. These risks and uncertainties include, but are not limited to, general economic conditions, in particular relating to the automotive industry, consumer demand for the Company’s and its customers’ products, competitive and technological developments, customer purchasing actions, changes in warranty provisions and customers’ product recall policies, foreign currency fluctuations, uncertainties stemming from U.S. trade policies, tariffs and reactions to same from foreign countries, costs of operations, the volume and scope of product returns and warranty claims and other matters described in the section titled “Risk Factors” in the Company’s Form 10-K report filed on September 6, 2018 with the Securities and Exchange Commission for the year ended July 1, 2018.

Shareholders, potential investors and other readers are urged to consider these factors carefully in evaluating the forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements made herein are only made as of the date of this Form 10-Q and the Company undertakes no obligation to publicly update such forward-looking statements to reflect subsequent events or circumstances occurring after the date of this Form 10-Q.

STRATTEC SECURITY CORPORATION AND SUBSIDIARIES
Notes to Condensed Consolidated Financial Statements
(Unaudited)

Basis of Financial Statements

STRATTEC SECURITY CORPORATION designs, develops, manufactures and markets automotive access control products including mechanical locks and keys, electronically enhanced locks and keys, steering column and instrument panel ignition lock housings, latches, power sliding door systems, power lift gate systems, power deck lid systems, door handles and related products for primarily North American automotive customers. We also supply global automotive manufacturers through a unique strategic relationship with WITTE Automotive (“WITTE”) of Velbert, Germany, and ADAC Automotive (“ADAC”) of Grand Rapids, Michigan. Under this relationship, STRATTEC, WITTE and ADAC market the products of each company to global customers under the “VAST Automotive Group” brand name (as more fully described herein). STRATTEC products are shipped to customer locations in the United States, Canada, Mexico, Europe, South America, Korea, China and India, and we provide full service and aftermarket support for each VAST Automotive Group partner’s products. We also maintain a 51 percent interest in a joint venture, STRATTEC Advanced Logic, LLC (“SAL LLC”), which exists to introduce a new generation of biometric security products based on the designs of Actuator Systems, our partner and the owner of the remaining ownership interest. The business of SAL LLC has been wound down to sell only commercial biometric locks.

The accompanying condensed consolidated financial statements reflect the consolidated results of STRATTEC SECURITY CORPORATION, its wholly owned Mexican subsidiary, STRATTEC de Mexico, and its majority owned subsidiaries, ADAC-STRATTEC, LLC and STRATTEC POWER ACCESS LLC. STRATTEC SECURITY CORPORATION is located in Milwaukee, Wisconsin. STRATTEC de Mexico is located in Juarez, Mexico. ADAC-STRATTEC, LLC and STRATTEC POWER ACCESS LLC have operations in El Paso, Texas and Juarez and Leon, Mexico. Equity investments in Vehicle Access Systems Technology LLC (“VAST LLC”) and SAL LLC, for which we exercise significant influence but do not control and are not the primary beneficiary, are accounted for using the equity method. VAST LLC consists primarily of three wholly owned subsidiaries in China, one wholly owned subsidiary in Brazil and one joint venture entity in India. The results of the VAST LLC foreign subsidiaries and joint venture are reported on a one-month lag basis. SAL LLC is located in El Paso, Texas. We have only one reporting segment.

In the opinion of management, the accompanying condensed consolidated balance sheets as of September 30, 2018 and July 1, 2018, which have been derived from our audited financial statements, and the related unaudited interim condensed consolidated financial statements included herein contain all adjustments, consisting only of normal recurring items, necessary for their fair presentation in conformity with accounting principles generally accepted in the United States of America (“U.S. GAAP”) and in accordance with Rule 10-01 of Regulation S-X. All significant intercompany transactions have been eliminated.

Interim financial results are not necessarily indicative of operating results for an entire year. The information included in this Form 10-Q should be read in conjunction with the financial statements and notes thereto included in the STRATTEC SECURITY CORPORATION 2018 Annual Report, which was filed with the Securities and Exchange Commission as an exhibit to our Form 10-K on September 6, 2018.

New Accounting Standards

In May 2014, the FASB issued an update to the accounting guidance for the recognition of revenue arising from contracts with customers. The update supersedes most current revenue recognition guidance and outlines a single comprehensive model for revenue recognition based on the principle that an entity should recognize revenue in an amount that reflects the expected consideration to be received in the exchange of goods and services. The guidance update also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts. We implemented the new standard effective July 2, 2018, the first day of our 2019 fiscal year, using the modified retrospective approach to transition to the new standard. We assessed our revenue stream based upon the provisions of our customer contracts in effect on the July 2, 2018 effective date to determine the cumulative effect of initially applying the guidance. Based on our assessment, the adoption date financial statement impact was limited to a balance sheet reclassification required to establish the contract liability concept provided for in the guidance. As such, comparative financial information for reporting periods prior to July 2, 2018, has not been restated and continues to be reported in accordance with our revenue recognition policies prior to the adoption of the new guidance. Additionally, there was no cumulative effect adjustment required to be recorded to our retained earnings. The effect of the reclassification changes made to our July 2, 2018 Condensed Consolidated Balance Sheet increased Receivables, net by \$1.2 million, with a corresponding increase to Accrued Liabilities: Other. Refer to the discussion of Revenue from Contracts with Customers included in these Notes to Condensed Consolidated Financial Statements.

In February 2016, the FASB issued an update to the accounting guidance for leases. The update increases the transparency and comparability among organizations by requiring lessees to recognize lease assets and lease liabilities on the balance sheet and to disclose key information about leasing arrangements. The guidance is effective for fiscal years beginning after December 15, 2018 and interim periods within those years. We do not expect that the adoption of this pronouncement will have a material impact on our consolidated financial statements.

In August 2016, the FASB issued an update to the accounting guidance on the classification of certain cash receipts and cash payments. The update aims to eliminate diversity in practice in how certain cash receipts and cash payments are presented and classified in the statement of cash flows. The guidance is effective for fiscal years beginning after December 15, 2017 and interim periods within those years. The adoption of this pronouncement did not have a material impact on our consolidated financial statements.

In February 2018, the FASB issued guidance on the reclassification of certain tax effects from accumulated other comprehensive income. The guidance will permit entities to reclassify tax effects stranded in accumulated other comprehensive income as a result of U.S. tax reform to retained earnings. The guidance is effective for fiscal years beginning after December 15, 2018, and interim periods within these fiscal years. We do not expect that the adoption of this pronouncement will have a material impact on our consolidated financial statements.

Derivative Instruments

We own and operate manufacturing operations in Mexico. As a result, a portion of our manufacturing costs are incurred in Mexican pesos, which causes our earnings and cash flows to fluctuate due to changes in the U.S. dollar/Mexican peso exchange rate. During the three month periods ended September 30, 2018 and October 1, 2017, we had contracts with Bank of Montreal that provided for monthly Mexican peso currency forward contracts for a portion of our estimated peso denominated operating costs. Our objective in entering into these currency forward contracts is to minimize our earnings volatility resulting from changes in exchange rates affecting the U.S. dollar cost of our Mexican operations. The Mexican peso forward contracts are not used for speculative purposes and are not designated as hedges. As a result, all currency forward contracts are recognized in our accompanying condensed consolidated financial statements at fair value and changes in the fair value are reported in current earnings as part of Other (Expense) Income, net.

The following table quantifies the outstanding Mexican peso forward contracts as of September 30, 2018 (thousands of dollars, except average forward contractual exchange rates):

	<u>Effective Dates</u>	<u>Notional Amount</u>	<u>Average Forward Contractual Exchange Rate</u>	<u>Fair Value</u>
Buy MXP/Sell USD	October 15, 2018 - December 17, 2018	\$ 3,000	20.02	\$ 186

The fair market value of all outstanding Mexican peso forward contracts in the accompanying Condensed Consolidated Balance Sheets was as follows (thousands of dollars):

	<u>September 30, 2018</u>	<u>July 1, 2018</u>
Not Designated as Hedging Instruments:		
Other Current Assets (Liabilities):		
Mexican Peso Forward Contracts	\$ 186	\$ (39)

The pre-tax effects of the Mexican peso forward contracts are included in Other (Expense) Income, net on the accompanying Condensed Consolidated Statements of Income and Comprehensive Income and consisted of the following (thousands of dollars):

	<u>Three Months Ended</u>	
	<u>September 30, 2018</u>	<u>October 1, 2017</u>
Not Designated as Hedging Instruments:		
Realized Gain	\$ 172	\$ 458
Unrealized Gain (Loss)	\$ 225	\$ (258)

Fair Value of Financial Instruments

The fair value of our cash and cash equivalents, accounts receivable, accounts payable and borrowings under our credit facility approximated book value as of September 30, 2018 and July 1, 2018. Fair value is defined as the exchange price that would be received for an asset or paid for a liability (an exit price) in the principal or most advantageous market in an orderly transaction between market participants on the measurement date.

The following table summarizes our financial assets and liabilities measured at fair value on a recurring basis as of September 30, 2018 (in thousands):

	Fair Value Inputs		
	Level 1 Assets: Quoted Prices In Active Markets	Level 2 Assets: Observable Inputs Other Than Market Prices	Level 3 Assets: Unobservable Inputs
Assets:			
Rabbi Trust Assets:			
Stock Index Funds:			
Small Cap	\$ 283	\$ —	\$ —
Mid Cap	285	—	—
Large Cap	575	—	—
International	863	—	—
Fixed Income Funds	864	—	—
Mexican Peso Forward Contracts	—	186	—
Total Assets at Fair Value	<u>\$ 2,870</u>	<u>\$ 186</u>	<u>\$ —</u>

The Rabbi Trust assets fund our amended and restated supplemental executive retirement plan and are included in Other Long-term Assets in the accompanying Condensed Consolidated Balance Sheets. Refer to discussion of Mexican peso forward contracts under Derivative Instruments above. The fair value of the Mexican peso forward contracts considers the remaining term, current exchange rate, and interest rate differentials between the U.S. dollar and Mexican peso. There were no transfers between Level 1 and Level 2 assets during the three month period ended September, 2018.

Equity Earnings of Joint Ventures

We hold a one-third interest in a joint venture company, VAST LLC, with WITTE and ADAC. VAST LLC exists to seek opportunities to manufacture and sell all three companies' products in areas of the world outside of North America and Europe. Our investment in VAST LLC, for which we exercise significant influence but do not control and are not the primary beneficiary, is accounted for using the equity method.

The following are summarized statements of operations for VAST LLC (in thousands):

	Three Months Ended	
	September 30, 2018	October 1, 2017
Net Sales	\$ 40,056	\$ 38,510
Cost of Goods Sold	31,102	29,013
Gross Profit	8,954	9,497
Engineering, Selling and Administrative Expenses	6,150	6,021
Income From Operations	2,804	3,476
Other Income, net	397	150
Income before Provision for Income Taxes	3,201	3,626
Provision for Income Taxes	467	522
Net Income	<u>\$ 2,734</u>	<u>\$ 3,104</u>
STRATTEC's Share of VAST LLC Net Income	\$ 911	\$ 1,035
Intercompany Profit Elimination	4	—
STRATTEC's Equity Earnings of VAST LLC	<u>\$ 915</u>	<u>\$ 1,035</u>

We hold a 51% ownership interest in a joint venture company, SAL LLC, which was formed to introduce a new generation of biometric security products based upon the designs of Actuator Systems LLC, our partner. SAL LLC is considered a variable interest entity based on loans from STRATTEC as discussed below. STRATTEC is not the primary beneficiary and does not control the entity. Accordingly, our investment in SAL LLC is accounted for using the equity method.

Loans were made from STRATTEC to SAL LLC in support of operating expenses and working capital needs. The outstanding loan amounts totaled \$2.6 million as of September 30, 2018 and July 1, 2018. As of each balance sheet date, the outstanding loan amount was eliminated against STRATTEC's Investment in SAL LLC in the preparation of the consolidated financial statements.

Even though we maintain a 51 percent ownership interest in SAL LLC, effective with our fiscal 2015 fourth quarter, 100 percent of the funding for SAL LLC was being made by loans from STRATTEC to SAL LLC. Therefore, STRATTEC recognized 100 percent of the losses of SAL LLC up to our committed financial support through Equity Earnings of Joint Ventures in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income for all periods presented in this report.

The following are summarized statements of operations for SAL LLC (in thousands):

	Three Months Ended	
	September 30, 2018	October 1, 2017
Net Sales	\$ 6	\$ 108
Cost of Goods Sold	(3)	152
Gross Margin (Loss)	9	(44)
Engineering, Selling and Administrative Expenses	15	(10)
Loss From Operations	(6)	(34)
Other Expense, net	—	(65)
Net Loss	<u>\$ (6)</u>	<u>\$ (99)</u>
STRATTEC's Equity Loss of SAL LLC	<u>\$ (6)</u>	<u>\$ (9)</u>

The business of SAL LLC has been wound down to sell only commercial biometric locks.

We have sales of component parts to VAST LLC and SAL LLC, purchases of component parts from VAST LLC, expenses charged to VAST LLC for engineering and accounting services and expenses charged to us from VAST LLC for general headquarters expenses. The following table summarizes these related party transactions with VAST LLC and SAL LLC for the periods indicated below (in thousands):

	Three Months Ended	
	September 30, 2018	October 1, 2017
Sales to VAST LLC	\$ 498	\$ 596
Sales to SAL LLC	\$ —	\$ 35
Purchases from VAST LLC	\$ 42	\$ 45
Expenses Charged to VAST LLC	\$ 345	\$ 212
Expenses Charged from VAST LLC	\$ 207	\$ 218

Credit Facilities

STRATTEC has a \$40 million secured revolving credit facility (the "STRATTEC Credit Facility") with BMO Harris Bank N.A., which expires August 1, 2021. ADAC-STRATTEC LLC has a \$30 million secured revolving credit facility (the "ADAC-STRATTEC Credit Facility") with BMO Harris Bank N.A., which is guaranteed by STRATTEC and expires August 1, 2020. The ADAC-STRATTEC Credit Facility borrowing limit decreases to \$25 million effective July 1, 2019. Borrowings under either credit facility are secured by our U.S. cash balances, accounts receivable, inventory, and fixed assets located in the U.S. Interest on borrowings under both credit facilities is at varying rates based, at our option, on the London Interbank Offering Rate ("LIBOR") plus 1.0 percent or the bank's prime rate. Both credit facilities contain a restrictive financial covenant that requires the applicable borrower to maintain a minimum net worth level. The ADAC-STRATTEC Credit Facility includes an additional restrictive financial covenant that requires the maintenance of a minimum fixed charge coverage ratio. As of September 30, 2018, we were in compliance with all financial covenants required by these credit facilities.

Outstanding borrowings under the credit facilities were as follows (in thousands):

	September 30, 2018	July 1, 2018
STRATTEC Credit Facility	\$ 24,000	\$ 23,000
ADAC-STRATTEC Credit Facility	\$ 27,000	\$ 28,000

Average outstanding borrowings and the weighted average interest rate under each credit facility referenced above were as follows for each period presented (in thousands):

	Three Months Ended			
	Average Outstanding Borrowings		Weighted Average Interest Rate	
	September 30, 2018	October 1, 2017	September 30, 2018	October 1, 2017
STRATTEC Credit Facility	\$ 23,813	\$ 18,143	3.1%	2.3%
ADAC-STRATTEC Credit Facility	\$ 28,396	\$ 18,022	3.1%	2.2%

Commitments and Contingencies

We are from time to time subject to various legal actions and claims incidental to our business, including those arising out of alleged defects, alleged breaches of contracts, product warranties, intellectual property matters and employment related matters. It is our opinion that the outcome of such matters will not have a material adverse impact on our consolidated financial position, results of operations or cash flows. With respect to warranty matters, although we cannot ensure that future costs of warranty claims by customers will not be material, we believe our established reserves are adequate to cover potential warranty settlements.

In 1995, we recorded a provision of \$3 million for estimated costs to remediate an environmental contamination site at our Milwaukee facility. The facility was contaminated by a solvent spill, which occurred in 1985, from a former above ground solvent storage tank located on the east side of the facility. The reserve was originally established based on third party estimates to adequately cover the cost for active remediation of the contamination. Due to changing technology and related costs associated with active remediation of the contamination, in fiscal 2010, the reserve was adjusted based on updated third party estimates to adequately cover the cost for active remediation of the contamination. Additionally, in fiscal 2016, we obtained updated third party estimates for adequately covering the cost for active remediation of this contamination. Based upon the updated estimates, no further adjustment to the reserve was required. From 1995 through September 30, 2018, costs of approximately \$585,000 have been incurred related to the installation of monitoring wells on the property and ongoing monitoring costs. We monitor and evaluate the site with the use of these groundwater monitoring wells. An environmental consultant samples these wells one or two times a year to determine the status of the contamination and the potential for remediation of the contamination by natural attenuation, the dissipation of the contamination over time to concentrations below applicable standards. If such sampling evidences a sufficient degree of and trend toward natural attenuation of the contamination at the site, we may be able to obtain a closure letter from the regulatory authorities resolving the issue without the need for active remediation. If a sufficient degree and trend toward natural attenuation is not evidenced by sampling, a more active form of remediation beyond natural attenuation may be required. The sampling has not yet satisfied all of the requirements for closure by natural attenuation. As a result, sampling continues and the reserve remains at an amount to reflect our estimated cost of active remediation. The reserve is not measured on a discounted basis. We believe, based on findings-to-date and known environmental regulations, that the remaining environmental reserve of \$1.3 million at September 30, 2018 is adequate.

Shareholders' Equity

A summary of activity impacting shareholders' equity for the three month period ended September 30, 2018 was as follows (in thousands):

	<u>Total Shareholders' Equity</u>	<u>Equity Attributable to STRATTEC</u>	<u>Equity Attributable to Non- Controlling Interest</u>
Balance, July 1, 2018	\$ 183,246	\$ 162,158	\$ 21,088
Net Income	4,429	3,467	962
Dividend Declared	(514)	(514)	—
Dividend Declared – Non-controlling Interests of Subsidiaries	(784)	—	(784)
Translation adjustments	831	177	654
Stock Based Compensation	385	385	—
Pension and Postretirement Adjustment, Net of Tax	316	316	—
Employee Stock Purchases	23	23	—
Balance, September 30, 2018	<u>\$ 187,932</u>	<u>\$ 166,012</u>	<u>\$ 21,920</u>

Revenue from Contracts with Customers

We generate revenue from the production of parts sold to automotive and light-truck Original Equipment Manufacturers (“OEMs”), or Tier 1 suppliers at the direction of the OEM, under long-term supply agreements supporting new vehicle production. Such agreements also require related production of service parts subsequent to the initial vehicle production periods. Additionally, we generate revenue from the production of parts sold in aftermarket service channels and to non-automotive commercial customers.

Revenue Recognition:

Our contracts with customers under long-term supply agreements do not commit the customer to a specified quantity of parts. However, we are generally required to fulfill our customers' purchasing requirements for the production life of the vehicle. Contracts do not become a performance obligation until we receive either a purchase order and/or customer release for a specific number of parts at a specified price. While long-term supply agreements may range from four to six years for new vehicle production and ten to fifteen subsequent years for service parts production, contracts may be terminated by customers at any time. Historically, terminations have been minimal. Contracts may also provide for annual price reductions over the production life of the vehicle, and prices are adjusted on an ongoing basis to reflect changes in product content/cost and other commercial factors.

Revenue is recognized at a point in time when control of the parts produced are transferred to the customer according to the terms of the contract, which is usually when the parts are shipped or delivered to the customer's premises. Customers are generally invoiced upon shipment or delivery and payment generally occurs within 45 to 90 days after the shipment date. The amount of revenue recognized reflects the consideration that we expect to be entitled to receive in exchange for those products based on purchase orders, annual price reductions and ongoing price adjustments, some of which is accounted for as variable consideration. We use the most likely amount method, the single most likely outcome of the contract, to estimate the amount to which we expect to be entitled. There were no significant changes to our estimates of variable consideration during the reporting period and significant changes to our estimates of variable consideration are not expected in future periods.

We do not have an enforceable right to payment at any time prior to when the parts are shipped or delivered to the customer. Therefore, we recognize revenue at the point in time we satisfy a performance obligation by transferring control of a part to a customer. Amounts billed to customers related to shipping and handling costs are included in Net Sales in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income. Shipping and handling costs are accounted for as fulfillment costs and are included in Cost of Goods Sold in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income.

Tooling and Pre-Production Engineering Costs Related to Long-Term Supply Arrangements:

We incur pre-production engineering and tooling costs related to the products produced for our customers under long-term supply agreements. Customer reimbursements for tooling and pre-production engineering activities that are part of a long-term supply arrangement are accounted for as a reduction of cost in accordance with ASC 340, Other Assets and Deferred Costs. Pre-production costs related to long-term supply agreements with a contractual guarantee for reimbursement are included in Other Current Assets in the accompanying Condensed Consolidated Balance Sheets. We expense all pre-production engineering costs for which reimbursement is not contractually guaranteed by the customer. All pre-production tooling costs related to customer-owned tools for which reimbursement is not contractually guaranteed by the customer or for which we do not have a non-cancelable right to use the tooling is also expensed when incurred.

Receivables, net:

Receivables, net include amounts billed and currently due from customers. We maintain an allowance for doubtful accounts to provide for estimated amounts of receivables not expected to be collected. We continually assess our receivables for collectability and any allowance is recorded based upon age of the outstanding receivables, historical payment experience, customer creditworthiness and general economic conditions.

Contract Balances:

We have no material contract assets as of September 30, 2018. Contract liability balances primarily include discounts recognized as a reduction in sales at the point of revenue recognition, but which will be applied by the customer agreement after the end of the reporting period. The activity related to contract liability balances during the period was as follows (thousands of dollars):

Balance, July 2, 2018	\$	1,195
Discounts Recorded as a Reduction in Sales		454
Payments of Discounts to Customers		(784)
Other		30
Balance, September 30, 2018	<u>\$</u>	<u>895</u>

Revenue by Product Group and Customer:

Revenue by product group was as follows (thousands of dollars):

	<u>Three Months Ended</u>	
	<u>September 30, 2018</u>	<u>October 1, 2017</u>
Keys & Locksets	\$ 34,352	\$ 25,701
Power Access	22,399	23,073
Door Handles & Exterior Trim	25,958	17,836
Driver Controls	10,747	12,579
Aftermarket & OE Service	10,984	11,290
Latches	11,055	9,520
Other	1,664	2,461
	<u>\$ 117,159</u>	<u>\$ 102,460</u>

Revenue by customer or customer group was as follows (thousands of dollars):

	<u>Three Months Ended</u>	
	<u>September 30, 2018</u>	<u>October 1, 2017</u>
Fiat Chrysler Automobiles	\$ 30,297	\$ 24,102
General Motors Company	25,287	20,338
Ford Motor Company	15,523	15,373
Tier 1 Customers	17,816	15,743
Commercial and Other OEM Customers	20,928	17,867
Hyundai / Kia	7,308	9,037
	<u>\$ 117,159</u>	<u>\$ 102,460</u>

Other (Expense) Income, net

Net other (expense) income included in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income primarily included foreign currency transaction gains and losses, realized and unrealized losses on our Mexican peso currency forward contracts, net periodic pension and postretirement benefit (costs) credits, other than the service cost component, related to our pension and postretirement plans and Rabbi Trust gains and losses. Foreign currency transaction gains and losses resulted from activity associated with foreign denominated assets held by our Mexican subsidiaries. We entered into the Mexican Peso currency forward contracts to minimize earnings volatility resulting from changes in exchange rates affecting the U.S. dollar cost of our Mexican operations. The Rabbi Trust assets fund our amended and restated supplemental executive retirement plan. The investments held in this Trust are considered trading securities.

The impact of these items for each of the periods presented was as follows (in thousands):

	Three Months Ended	
	September 30, 2018	October 1, 2017
Foreign Currency Transaction Loss	\$ (428)	\$ (137)
Unrealized Gain (Loss) on Peso Forward Contracts	225	(258)
Realized Gain on Peso Forward Contracts	172	458
Pension and Postretirement Plans (Cost) Credit	(318)	112
Rabbi Trust Gain	79	89
Other	25	(177)
	<u>\$ (245)</u>	<u>\$ 87</u>

Income Taxes

Our income tax provision for the three month period ended September 30, 2018 was impacted by the Tax Cuts and Jobs Act of 2017 (“the Act”), which was signed into law on December 22, 2017 with an effective date of January 1, 2018. The Act made broad and complex changes to the U.S. tax code that affected our tax provision beginning January 1, 2018, including but not limited to (1) a reduction in the U.S. statutory tax rate to 21 percent following its effective date, (2) changes in the U.S. taxation of non-U.S. earnings, and (3) bonus depreciation that will allow for full expensing of qualified property. The current year quarter included a tax benefit of \$20,000 compared to a tax provision of \$1.1 million in the prior year quarter. This change is the result of a reduction in the expected effective tax rate between periods as well as a current year quarter discrete benefit of \$372,000, which represents measurement period adjustments to the one-time transition tax on non-previously taxed post 1986 accumulated foreign earnings. The expected effective tax rate between years decreased from approximately 23.5 percent in the prior year quarter to 8 percent in the current year quarter as a result of the reduction in the U.S. statutory rate and changes in the U.S. taxation of non-U.S. earnings.

The SEC staff issued SAB 118, which provides guidance on accounting for the tax effects of the Act. SAB 118 provides a measurement period that should not extend beyond one year from the Act’s enactment date for companies to complete the accounting under ASC 740. In accordance with SAB 118, a company must reflect the income tax effects of those aspects of the Act for which the accounting under ASC 740 is complete. To the extent that a company’s accounting for certain income tax effects of the Act is incomplete but it is still able to determine a reasonable estimate of the tax effect, it must record a provisional estimate in the financial statements. If a company cannot determine a provisional estimate to be included in the financial statements, it should continue to apply ASC 740 on the basis of the provision of the tax laws that were in effect immediately before the enactment of the Act.

In connection with our analysis of the impact of the Act, we recorded a discrete net tax benefit in the six month period ended July 1, 2018 primarily consisting of (1) the impact of the change in measurement of our deferred tax assets and liabilities, (2) the one-time transition tax on non-previously taxed post 1986 accumulated foreign earnings, and (3) the impact of changing our annualized effective tax rate. Measurement period adjustments recorded in the three month period ended September 30, 2018 totaled \$372,000. For various reasons that are discussed more fully below, we have not completed our accounting for the income tax effects for certain elements of the Act. However, we were able to make reasonable estimates of certain effects and, therefore, we recorded provisional adjustments of these elements in the accompanying condensed financial statements. We identified these items as provisional since our analysis of each of the items is not complete.

The Act reduces the corporate tax rate to 21 percent, effective January 1, 2018. For certain of our net deferred tax assets, we have recorded a provisional adjustment to reflect the reduction in the corporate tax rate. While we are able to make a reasonable estimate of the impact of the reduction in the corporate rate, it may be affected by other analyses related to the Act, including, but not limited to, the impact of our calculation of deemed repatriation of deferred foreign income and the impact of full expensing for certain assets.

The Deemed Repatriation Transition Tax (“Transition Tax”) is a tax on previously untaxed accumulated and current earnings and profits (E&P) of certain of our foreign subsidiaries. To determine the amount of the Transition Tax, we must determine, in addition to other factors, the amount of post-1986 E&P of the relevant subsidiaries, as well as the amount of non-U.S. income taxes paid on such earnings. We were able to make a reasonable estimate of the Transition Tax and recorded a provisional Transition Tax obligation in the accompanying condensed financial statements. However, we are continuing to gather additional information to more precisely compute the amount of the Transition Tax.

We must assess whether our valuation allowance analyses are affected by various aspects of the Act (e.g., deemed repatriation of deferred foreign income, Global Intangible Low-Taxed Income (“GILTI”) inclusions, and new categories of Foreign Tax Credits). Since, as discussed herein, we have recorded provisional amounts related to certain portions of the Act, any corresponding determination of the need for, or change in, a valuation allowance is also provisional.

Our accounting for the following elements of the Act is incomplete, and we were not yet able to make reasonable estimates of the effects. Therefore, no provisional adjustments were recorded for the following elements in our accompanying condensed financial statements.

Because of the complexity of the new GILTI tax rules, we are continuing to evaluate this provision of the Act and the application of ASC 740. Under U.S. GAAP, we are allowed to make an accounting policy choice of either (1) treating taxes due on future U.S. inclusions in taxable income related to GILTI as a current-period expense when incurred (the “period cost method”) or (2) factoring such amounts into a company’s measurement of its deferred taxes (the “deferred method”). Our selection of an accounting policy with respect to the new GILTI tax rules will depend, in part, on analyzing our global income to determine whether we expect to have future U.S. inclusions in taxable income related to GILTI and, if so, what the impact is expected to be. Because whether we expect to have future U.S. inclusions in taxable income related to GILTI depends on not only our current structure and estimated future results of global operations but also our intent and ability to modify our structure and/or our business, we are not yet able to reasonably estimate the effect of this provision of the Act. Therefore, we have not made any adjustments related to potential GILTI tax in our financial statements and have not made a policy decision regarding whether to record deferred taxes on GILTI.

Additionally, our income tax provisions for the three months ended September 30, 2018 and October 1, 2017 were affected by the non-controlling interest portion of our pre-tax income. The non-controlling interest impacts the effective tax rate as ADAC-STRATTEC LLC and STRATTEC POWER ACCESS LLC entities are taxed as partnerships for U.S. tax purposes.

Earnings Per Share (EPS)

Basic earnings per share is computed on the basis of the weighted average number of shares of common stock outstanding during the applicable period. Diluted earnings per share is computed on the basis of the weighted average number of shares of common stock plus the potential dilutive common shares outstanding during the applicable period using the treasury stock method. Potential dilutive common shares include outstanding stock options and unvested restricted stock awards.

A reconciliation of the components of the basic and diluted per-share computations follows (in thousands, except per share amounts):

	Three Months Ended					
	September 30, 2018			October 1, 2017		
	Net income	Shares	Per-Share Amount	Net income	Shares	Per-Share Amount
Basic Earnings Per Share	\$ 3,467	3,652	\$ 0.95	\$ 2,456	3,611	\$ 0.68
Stock Option and Restricted Stock Awards	—	59		—	70	
Diluted Earnings Per Share	\$ 3,467	3,711	\$ 0.93	\$ 2,456	3,681	\$ 0.67

The calculation of earnings per share excluded 41,200 and 63,550 share-based payment awards as of September 30, 2018 and October 1, 2017, respectively, because their inclusion would have been anti-dilutive.

Stock-based Compensation

We maintain an omnibus stock incentive plan. This plan provides for the granting of stock options, shares of restricted stock and stock appreciation rights. As of September 30, 2018, the Board of Directors had designated 1,850,000 shares of common stock available for the grant of awards under the plan. Remaining shares available to be granted under the plan as of September 30, 2018 were 147,939. Awards that expire or are canceled without delivery of shares become available for re-issuance under the plan. We issue new shares of common stock to satisfy stock option exercises.

Nonqualified and incentive stock options and shares of restricted stock have been granted to our officers, outside directors and specified associates under our stock incentive plan. Stock options granted under the plan may not be issued with an exercise price less than the fair market value of the common stock on the date the option is granted. Stock options become exercisable as determined at the date of grant by the Compensation Committee of the Board of Directors. The options expire 10 years after the grant date unless an earlier expiration date is set at the time of grant. The options vest 1 to 4 years after the date of grant as determined by the Compensation Committee of the Board of Directors. Shares of restricted stock granted under the plan are subject to vesting criteria determined by the Compensation Committee of the Board of Directors at the time the shares are granted and have a minimum vesting period of one year from the date of grant. Unvested restricted shares granted have voting rights, regardless of whether the shares are vested or unvested, but only have the right to receive cash dividends after such shares become vested. Prior to August 2016, the restricted stock grants issued vest 3 to 5 years after the date of grant. As of August 2016, restricted stock grants issued vest 1 to 5 years after the date of grant as determined by the Compensation Committee of the Board of Directors.

The fair value of each stock option grant was estimated as of the date of grant using the Black-Scholes pricing model. The fair value of each restricted stock grant was based on the market price of the underlying common stock as of the date of grant. The resulting compensation cost for fixed awards with graded vesting schedules is amortized on a straight line basis over the vesting period for the entire award.

A summary of outstanding and exercisable stock options as of September 30, 2018 follows:

	<u>Shares</u>	<u>Weighted Average Exercise Price</u>	<u>Weighted Average Remaining Contractual Term (years)</u>	<u>Aggregate Intrinsic Value (in thousands)</u>
Outstanding, July 1, 2018	<u>133,074</u>	\$ 29.37		
Outstanding, September 30, 2018	<u>133,074</u>	\$ 29.37	3.1	\$ 1,331
Exercisable, September 30, 2018	<u>113,074</u>	\$ 29.37	3.1	\$ 1,331

There was no stock option activity under our stock incentive plan for the three months ended September 30, 2018 and accordingly, no stock options were exercised or vested during the three month period ended September 30, 2018.

No options were granted during the three month periods ended September 30, 2018 or October 1, 2017.

A summary of restricted stock activity under our omnibus stock incentive plan for the three months ended September 30, 2018 was as follows:

	<u>Shares</u>	<u>Weighted Average Grant Date Fair Value</u>
Nonvested Balance, July 1, 2018	69,125	\$ 49.02
Granted	34,050	\$ 37.25
Vested	(37,343)	\$ 54.93
Forfeited	(725)	\$ 54.28
Nonvested Balance, September 30, 2018	<u>65,107</u>	\$ 39.42

As of September 30, 2018, all compensation cost related to outstanding stock options granted under our omnibus stock incentive plan has been recognized. As of September 30, 2018, there was approximately \$1.8 million of total unrecognized compensation cost related to unvested restricted stock grants outstanding under the plan. This cost is expected to be recognized over a remaining weighted average period of 1.2 years. Total unrecognized compensation cost will be adjusted for any future changes in estimated and actual forfeitures of awards granted under our omnibus stock incentive plan.

Pension and Postretirement Benefits

We have a qualified, noncontributory defined benefit pension plan (“Qualified Pension Plan”) covering substantially all U.S. associates employed by us prior to January 1, 2010. Benefits under the Qualified Pension Plan are based on credited years of service and final average compensation. Our policy is to fund the Qualified Pension Plan with at least the minimum actuarially computed annual contribution required under the Employee Retirement Income Security Act of 1974 (ERISA). Plan assets consist primarily of listed equity and fixed income securities. Effective December 31, 2009, the Board of Directors amended the Qualified Pension Plan to freeze benefit accruals and future eligibility. The Board of Directors has subsequently approved to proceed with the termination of the Qualified Pension Plan. We submitted a request to, and received a response from, the IRS for a determination letter that the Qualified Pension Plan is qualified for termination. We intend to distribute substantially all of the Qualified Pension Plan assets prior to the end of December 2018. Additionally, in connection with preparing for the termination of the Qualified Pension Plan, we amended the plan to provide that participants are 100 percent vested in their accrued benefits as of the effective date of the plan termination, to adopt a new standard for disability benefits that will apply when the plan’s assets are distributed due to the termination, to add a lump sum distribution for employees and terminated vested participants who are not in payment status when Qualified Pension Plan assets are distributed due to the termination. We will contribute to the Trust Fund for the Qualified Pension Plan as necessary to ensure there are sufficient assets to provide all Qualified Pension Plan benefits as required by the Pension Benefit Guaranty Corporation (“PBGC”). The financial impact of the Qualified Pension Plan termination will be recognized as a settlement of the Qualified Pension Plan liabilities. The settlement date and related financial impact may occur during fiscal year 2019 but have not yet been determined and is still subject to final Board approval.

We have historically had in place a noncontributory supplemental executive retirement plan (“SERP”), which prior to January 1, 2014 was a nonqualified defined benefit plan that essentially mirrored the Qualified Pension Plan, but provided benefits in excess of certain limits placed on our Qualified Pension Plan by the Internal Revenue Code. As noted above, we froze our Qualified Pension Plan effective as of December 31, 2009 and the SERP provided benefits to participants as if the Qualified Pension Plan had not been frozen. Because the Qualified Pension Plan was frozen and because new employees were not eligible to participate in the Qualified Pension Plan, our Board of Directors adopted amendments to the SERP on October 8, 2013 that were effective as of December 31, 2013 to simplify the SERP calculation. The SERP is funded through a Rabbi Trust with BMO Harris Bank N.A. Under the amended SERP, participants received an accrued lump-sum benefit as of December 31, 2013, which was credited to each participant’s account. Subsequent to December 31, 2013, each eligible participant received, and currently receives, a supplemental retirement benefit equal to the foregoing lump sum benefit, plus an annual benefit accrual equal to 8 percent of the participant’s base salary and cash bonus, plus annual credited interest on the participant’s account balance. All then current participants as of December 31, 2013 are fully vested in their account balances with any new individuals participating in the SERP effective on or after January 1, 2014 being subject to a five year vesting period. The SERP, which is considered a defined benefit plan under applicable rules and regulations of the Internal Revenue Code, will continue to be funded through use of a Rabbi Trust to hold investment assets to be used in part to fund any future required lump sum benefit payments to participants. The Rabbi Trust assets had a value of \$2.9 million at September 30, 2018 and \$2.8 million at July 1, 2018, respectively, and are included in Other Long-Term Assets in the accompanying Condensed Consolidated Balance Sheets.

We also sponsor a postretirement health care plan for all U.S. associates hired prior to June 1, 2001. The expected cost of retiree health care benefits is recognized during the years the associates who are covered under the plan render service. Effective January 1, 2010, an amendment to the postretirement health care plan limited the benefit for future eligible retirees to \$4,000 per plan year and the benefit is further subject to a maximum five year coverage period based on the associate’s retirement date and age. The postretirement health care plan is unfunded.

The service cost component of the net periodic benefit costs under these plans is allocated between Cost of Goods Sold and Engineering, Selling and Administrative Expenses while the remaining components of the net periodic benefit costs are included in Other (Expense) Income, net in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income.

The following table summarizes the net periodic benefit cost recognized for each of the periods indicated under these plans (in thousands):

	Pension Benefits		Postretirement Benefits	
	Three Months Ended		Three Months Ended	
	September 30, 2018	October 1, 2017	September 30, 2018	October 1, 2017
Service cost	\$ 15	\$ 17	\$ 3	\$ 3
Interest cost	1,032	964	11	11
Expected return on plan assets	(1,138)	(1,528)	—	—
Amortization of prior service cost (credit)	—	3	(110)	(191)
Amortization of unrecognized net loss	416	509	107	120
Net periodic benefit (credit) cost	<u>\$ 325</u>	<u>\$ (35)</u>	<u>\$ 11</u>	<u>\$ (57)</u>

No voluntary contributions were made to the Qualified Pension Plan during the three month periods ended September 30, 2018 and October 1, 2017. No additional contributions are anticipated to be made during the remainder of fiscal 2019.

Accumulated Other Comprehensive Loss

The following tables summarize the changes in accumulated other comprehensive loss (“AOCL”) for each period presented (in thousands):

	Three Months Ended September 30, 2018		
	Foreign Currency Translation Adjustments	Retirement and Postretirement Benefit Plans	Total
Balance, July 1, 2018	\$ 15,291	\$ 18,148	\$ 33,439
Other comprehensive loss before reclassifications	(831)	—	(831)
Income tax	—	—	—
Net other comprehensive loss before Reclassifications	(831)	—	(831)
Reclassifications:			
Prior service credits (A)	—	110	110
Actuarial gains (A)	—	(523)	(523)

Net reclassifications	—	(316)	(316)
Other comprehensive loss (income)	(831)	(316)	(1,147)
Other comprehensive income attributable to non- controlling interest	(654)	—	(654)
Balance, September 30, 2018	<u>\$ 15,114</u>	<u>\$ 17,832</u>	<u>\$ 32,946</u>

	Three Months Ended October 1, 2017		
	Foreign Currency Translation Adjustments	Retirement and Postretirement Benefit Plans	Total
Balance, July 2, 2017	\$ 14,138	\$ 18,750	\$ 32,888
Other comprehensive loss before reclassifications	(297)	—	(297)
Income tax	—	—	—
Net other comprehensive loss before Reclassifications	(297)	—	(297)
Reclassifications:			
Prior service credits (A)	—	188	188
Unrecognized net loss (A)	—	(629)	(629)
Total reclassifications before tax	—	(441)	(441)
Income tax	—	163	163
Net reclassifications	—	(278)	(278)
Other comprehensive loss (income)	(297)	(278)	(575)
Other comprehensive loss attributable to non- controlling interest	78	—	78
Balance, October 1, 2017	<u>\$ 13,763</u>	<u>\$ 18,472</u>	<u>\$ 32,235</u>

(A) Amounts reclassified are included in the computation of net periodic benefit cost, which is included in Other (Expense) Income, net in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income. See Pension and Postretirement Benefits note to these Notes to Condensed Consolidated Financial Statements above.

STRATTEC SECURITY CORPORATION AND SUBSIDIARIES
MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis should be read in conjunction with STRATTEC SECURITY CORPORATION's accompanying Condensed Consolidated Financial Statements and Notes thereto and its 2018 Annual Report which was filed with the Securities and Exchange Commission as an exhibit to its Form 10-K on September 6, 2018. Unless otherwise indicated, all references to quarters and years refer to fiscal quarters and fiscal years.

Outlook

During the fiscal years ended July 1, 2018 and July 2, 2017, we experienced stronger sales demand for our components from our major North American automotive customers, Fiat Chrysler Automobiles, General Motors Company and Ford Motor Company, as it relates to light trucks and both sport and car based utility vehicles in comparison to passenger cars, which was likely influenced by both lower gas prices and consumer preferences. If gas prices continue to remain flat or slightly higher over the next few years, we anticipate this consumer buying trend will continue. As we look out over the remainder of calendar 2018, the current sales projections from our third party forecasting service indicate that North American light vehicle production will remain flat or slightly lower than the levels experienced during calendar year 2017.

Analysis of Results of Operations

Three months ended September 30, 2018 compared to the three months ended October 1, 2017

	<u>Three Months Ended</u>	
	<u>September 30,</u> <u>2018</u>	<u>October 1,</u> <u>2017</u>
Net Sales (in millions)	\$ 117.2	\$ 102.5

Net sales to each of our customers or customer groups in the current year quarter and prior year quarter were as follows (in millions):

	<u>Three Months Ended</u>	
	<u>September 30,</u> <u>2018</u>	<u>October 1,</u> <u>2017</u>
Fiat Chrysler Automobiles	\$ 30.3	\$ 24.1
General Motors Company	25.3	20.3
Ford Motor Company	15.5	15.4
Tier 1 Customers	17.8	15.8
Commercial and Other OEM Customers	21.0	17.9
Hyundai / Kia	7.3	9.0
	<u>\$ 117.2</u>	<u>\$ 102.5</u>

Sales to Fiat Chrysler Automobiles increased in the current year quarter as compared to the prior year quarter due to higher product content on the components we supply. The increase in sales to General Motors Company in the current year quarter as compared to the prior year quarter was attributed to higher production volumes and content on models for which we supply components. Sales to Ford Motor Company in the current year quarter were essentially flat in comparison to the prior year quarter. Sales to Tier 1 Customers increased in the current year quarter as compared to the prior year quarter due to higher production volumes on products we supply. Sales to Commercial and Other OEM Customers during the current year quarter increased in comparison to the prior year quarter due to new customer programs at Honda of America Manufacturing, Inc. and Volkswagen. These customers, along with our Tier 1 Customers, represent purchasers of vehicle access control products, such as latches, fobs, driver control steering column locks and door handles and related components, that we have developed in recent years to complement our historic core business of locks and keys. The decreased sales to Hyundai / Kia in the current year quarter as compared to the prior year quarter were due to lower levels of production on vehicles for which we supply components.

	Three Months Ended	
	September 30, 2018	October 1, 2017
Cost of Goods Sold (in millions)	\$ 102.0	\$ 89.0

Direct material costs are the most significant component of our cost of goods sold and comprised \$67.8 million or 66.5 percent of our cost of goods sold in the current year quarter compared to \$57.4 million or 64.5 percent of our cost of goods sold in the prior year quarter. The increase in our direct material costs between these quarters of \$10.4 million or 18.1 percent was due to increased sales volumes in the current year quarter as compared to the prior year quarter. The increase in our direct material costs as a percentage of our cost of goods sold in the current year quarter as compared to the prior year quarter was due to an increase in sales of products for certain electrical and latch programs in the current year quarter over the prior year quarter, for which the material content represents a more significant portion of the total cost of the product. This trend is expected to continue for the remainder of our fiscal year 2019.

The remaining components of our cost of goods sold consist of labor and overhead costs which increased \$2.6 million or 8.2 percent to \$34.2 million in the current year quarter from \$31.6 million in the prior year quarter as the variable portion of these costs increased due to the increase in sales volumes between the three month periods. Additionally, higher production and expediting costs associated with new product launches occurring during the current year quarter to meet certain customer schedules, in particular in connection with door handle paint and assembly facility in Leon, Mexico, increased costs in the current year quarter as compared to the prior year quarter. These cost increases were partially offset by the impact of a favorable Mexican peso to U.S. dollar exchange rate affecting our operations in Mexico. The U.S. dollar value of our Mexican operations was favorably impacted by approximately \$900,000 in the current year quarter as compared to the prior year quarter due to a favorable Mexican peso to U.S. dollar exchange rate between these quarterly periods. The average U.S. dollar / Mexican peso exchange rate increased to approximately 18.96 pesos to the dollar in the current year quarter from approximately 17.95 pesos to the dollar in the prior year quarter.

	Three Months Ended	
	September 30, 2018	October 1, 2017
Gross Profit (in millions)	\$ 15.2	\$ 13.5
Gross Profit as a percentage of net sales	13.0%	13.1%

The increase in gross profit dollars in the current year quarter as compared to the prior year quarter was attributed to the increase in sales, partially offset by the increase in cost of goods sold as discussed above. Gross profit as a percentage of net sales was consistent between periods. The current quarter gross profit as a percentage of net sales included the impact of a favorable Mexican peso to U.S. dollar exchange rate impacting the U.S. dollar value of our Mexican operations, as discussed above, as well as more favorable absorption of our fixed manufacturing costs due to increased production volumes as compared to the prior year quarter. These favorable impacts were offset by higher production and expediting costs, as discussed above, and lower gross profit margins on products associated with certain new electrical, latch and lockset programs. The lower gross margins associated with these programs is the result of competitive pricing.

Engineering, selling and administrative expenses in the current year quarter and prior year quarter were as follows:

	Three Months Ended	
	September 30, 2018	October 1, 2017
Expenses (in millions)	\$ 11.0	\$ 10.0
Expenses as a percentage of net sales	9.4%	9.8%

Engineering, selling and administrative expenses increased during the current year quarter as compared to the prior year quarter. The current year quarter as compared to the prior year quarter included an increase in engineering costs related to our ADAC-STRATTEC LLC door handle and exterior trim products.

Income from operations was \$4.2 million in the current year quarter compared to \$3.4 million in the prior year quarter. This improvement was the result of the quarter over quarter increase in the gross profit margin, partially offset by an increase in engineering, selling and administrative expenses in the current year quarter as compared to the prior year quarter, all as discussed above.

The equity earnings (loss) of joint ventures was comprised of the following in the current year quarter and prior year quarter (in thousands):

	Three Months Ended	
	September 30, 2018	October 1, 2017
Vehicle Access Systems Technology LLC	\$ 915	\$ 1,035
STRATTEC Advanced Logic, LLC	(6)	(9)
	<u>\$ 909</u>	<u>\$ 1,026</u>

Our Vehicle Access Systems Technology LLC (“VAST LLC”) joint ventures in China and India continue to report profitable operating results while our joint venture in Brazil continues to report losses due to our limited amount of business in that region. STRATTEC is not the primary beneficiary and does not control STRATTEC Advanced Logic, LLC (“SAL LLC”). Accordingly, our investment in SAL LLC is accounted for using the equity method. During all periods presented in this report, 100 percent of the funding for SAL LLC was being made through loans from STRATTEC to SAL LLC. Therefore, during all periods presented in this report, even though STRATTEC maintains a 51 percent ownership interest in SAL LLC, STRATTEC recognized 100 percent of the losses of SAL LLC up to our committed financial support. The business of SAL LLC has been wound down to sell only commercial biometric locks.

Included in Other (Expense) Income, net in the current year quarter and prior year quarter were the following items (in thousands):

	Three Months Ended	
	September 30, 2018	October 1, 2017
Foreign Currency Transaction Loss	\$ (428)	\$ (137)
Unrealized Gain (Loss) on Peso Forward Contracts	225	(258)
Realized Gain on Peso Forward Contracts	172	458
Pension and Postretirement Plans (Cost) Credit	(318)	112
Rabbi Trust Gain	79	89
Other	25	(177)
	<u>\$ (245)</u>	<u>\$ 87</u>

Foreign currency transaction losses during the current year quarter and prior year quarter resulted from activity associated with foreign denominated assets held by our Mexican subsidiaries. We entered into the Mexican peso currency forward contracts to minimize earnings volatility resulting from changes in exchange rates affecting the U.S. dollar cost of our Mexican operations. Unrealized gains on the peso forward contracts recognized as a result of mark-to-market adjustments as of September 30, 2018 may or may not be realized in future periods, depending on the actual Mexican peso to U.S. dollar exchange rates experienced during the balance of the contract period. Pension and postretirement plan impacts include the components of net periodic benefit cost other than the service cost component. Our Rabbi Trust assets fund our amended and restated supplemental executive retirement plan. The investments held in the Trust are considered trading securities.

Our income tax provision for the three month period ended September 30, 2018 was impacted by the Tax Cuts and Jobs Act of 2017 (“the Act”), which was signed into law on December 22, 2017 with an effective date of January 1, 2018. The Act made broad and complex changes to the U.S. tax code that affected our tax provision beginning January 1, 2018, including but not limited to (1) a reduction in the U.S. statutory tax rate to 21 percent following its effective date and a change in the measurement of our deferred tax assets and deferred tax liabilities resulting from the reduction in the statutory rate, (2) changes in the U.S. taxation of non-U.S. earnings, and (3) bonus depreciation that will allow for full expensing of qualified property. The current year quarter included a tax benefit of \$20,000 compared to a tax provision of \$1.1 million in the prior year quarter. This change is the result of a reduction in the expected effective tax rate between periods as well as a current year quarter discrete benefit of \$372,000, which represents measurement period adjustments to the one-time transition tax on non-previously taxed post 1986 accumulated foreign earnings. The expected effective tax rate between years decreased from approximately 23.5 percent in the prior year quarter to 8 percent in the current year quarter as a result of the reduction in the U.S. statutory rate and changes in the U.S. taxation of non-U.S. earnings.

The SEC staff issued SAB 118, which provides guidance on accounting for the tax effects of the Act. SAB 118 provides a measurement period that should not extend beyond one year from the Act's enactment date for companies to complete the accounting under ASC 740. In accordance with SAB 118, a company must reflect the income tax effects of those aspects of the Act for which the accounting under ASC 740 is complete. To the extent that a company's accounting for certain income tax effects of the Act is incomplete but it is still able to determine a reasonable estimate of the tax effect, it must record a provisional estimate in the financial statements. If a company cannot determine a provisional estimate to be included in the financial statements, it should continue to apply ASC 740 on the basis of the provision of the tax laws that were in effect immediately before the enactment of the Act.

In connection with our analysis of the impact of the Act, we recorded a discrete net tax benefit in the six month period ended July 1, 2018 primarily consisting of (1) the impact of the change in measurement of our deferred tax assets and liabilities, (2) the one-time transition tax on non-previously taxed post 1986 accumulated foreign earnings, and (3) the impact of changing our annualized effective tax rate. Measurement period adjustments recorded in the three month period ended September 30, 2018 totaled \$372,000. For various reasons that are discussed more fully below, we have not completed our accounting for the income tax effects for certain elements of the Act. However, we were able to make reasonable estimates of certain effects and, therefore, we recorded provisional adjustments of these elements in the accompanying condensed financial statements. We identified these items as provisional since our analysis of each of the items is not complete.

The Act reduces the corporate tax rate to 21 percent, effective January 1, 2018. For certain of our net deferred tax assets, we have recorded a provisional adjustment to reflect the reduction in the corporate tax rate. While we are able to make a reasonable estimate of the impact of the reduction in the corporate rate, it may be affected by other analyses related to the Act, including, but not limited to, the impact of our calculation of deemed repatriation of deferred foreign income and the impact of full expensing for certain assets.

The Deemed Repatriation Transition Tax ("Transition Tax") is a tax on previously untaxed accumulated and current earnings and profits (E&P) of certain of our foreign subsidiaries. To determine the amount of the Transition Tax, we must determine, in addition to other factors, the amount of post-1986 E&P of the relevant subsidiaries, as well as the amount of non-U.S. income taxes paid on such earnings. We were able to make a reasonable estimate of the Transition Tax and recorded a provisional Transition Tax obligation in the accompanying condensed financial statements. However, we are continuing to gather additional information to more precisely compute the amount of the Transition Tax.

We must assess whether our valuation allowance analyses are affected by various aspects of the Act (e.g., deemed repatriation of deferred foreign income, Global Intangible Low-Taxed Income ("GILTI") inclusions, and new categories of Foreign Tax Credits). Since, as discussed herein, we have recorded provisional amounts related to certain portions of the Act, any corresponding determination of the need for, or change in, a valuation allowance is also provisional.

Our accounting for the following elements of the Act is incomplete, and we were not yet able to make reasonable estimates of the effects. Therefore, no provisional adjustments were recorded for the following elements in our accompanying condensed financial statements.

Because of the complexity of the new GILTI tax rules, we are continuing to evaluate this provision of the Act and the application of ASC 740. Under U.S. GAAP, we are allowed to make an accounting policy choice of either (1) treating taxes due on future U.S. inclusions in taxable income related to GILTI as a current-period expense when incurred (the "period cost method") or (2) factoring such amounts into a company's measurement of its deferred taxes (the "deferred method"). Our selection of an accounting policy with respect to the new GILTI tax rules will depend, in part, on analyzing our global income to determine whether we expect to have future U.S. inclusions in taxable income related to GILTI and, if so, what the impact is expected to be. Because whether we expect to have future U.S. inclusions in taxable income related to GILTI depends on not only our current structure and estimated future results of global operations but also our intent and ability to modify our structure and/or our business, we are not yet able to reasonably estimate the effect of this provision of the Act. Therefore, we have not made any adjustments related to potential GILTI tax in our financial statements and have not made a policy decision regarding whether to record deferred taxes on GILTI.

Additionally, our income tax provisions for the three months ended September 30, 2018 and October 1, 2017 were affected by the non-controlling interest portion of our pre-tax income. The non-controlling interest impacts the effective tax rate as ADAC-STRATTEC LLC and STRATTEC POWER ACCESS LLC entities are taxed as partnerships for U.S. tax purposes.

Liquidity and Capital Resources

Outstanding Receivable Balances from Major Customers

Our primary source of cash flow is from our major customers, which include Fiat Chrysler Automobiles, General Motors Company and Ford Motor Company. As of the date of filing this Form 10-Q with the Securities and Exchange Commission, all of our major customers are making payments on their outstanding accounts receivable in accordance with the payment terms included on their purchase orders. A summary of our outstanding receivable balances from our major customers as of September 30, 2018 was as follows (in millions):

Fiat Chrysler Automobiles	\$	19.9
General Motors Company	\$	20.7
Ford Motor Company	\$	9.1

Cash Balances in Mexico

We earn a portion of our operating income in Mexico. As of September 30, 2018, \$1.5 million of our \$10.3 million cash and cash equivalents balance was held in Mexico. These funds are available for repatriation as deemed necessary.

Cash Flow Analysis

	Three Months Ended	
	September 30, 2018	October 1, 2017
Cash Flows from (in millions):		
Operating Activities	\$ 7.8	\$ 0.4
Investing Activities	\$ (4.0)	\$ (7.6)
Financing Activities	\$ (1.3)	\$ 7.5

The change in operating cash flow between periods was impacted by improvement in our overall financial result and a reduction in working capital requirements in the current year period as compared to an increase in working capital requirements in the prior year period. The period over period decrease in net working capital requirements totaled \$5.8 million. The decrease in our working capital requirements between periods was made up of the following working capital changes between periods (in millions):

	Increase (Decrease) in Working Capital Requirements		
	Three Months Ended		Change
	September 30, 2018	October 1, 2017	
Accounts Receivable	\$ 4.4	\$ (1.2)	\$ 5.6
Inventory	\$ (0.4)	\$ 3.9	\$ (4.3)
Other Assets	\$ (2.7)	\$ 2.2	\$ (4.9)
Accounts Payable and Accrued Liabilities	\$ (1.4)	\$ 0.9	\$ (2.3)

The period over period change in the accounts receivable balances reflected an increase in our accounts receivable balances during the current year period and a reduction in our accounts receivable balances during the prior year period. The period over period change is the result of the timing of sales during each quarter. The increase in accounts receivable balances during the current year period reflected increased sales levels toward the end of the current year period as compared to the end of our June 2018 quarter. The reduction in accounts receivable balances during the prior year period reflected reduced sales levels toward the end of the prior year period as compared to the end of our June 2017 quarter. The period over period change in inventory reflected an increase in inventory balances during the prior year period, which was the result of ramping up for new customer program launches. The period over period change in other assets reflected a reduction in our other assets balances in the current year period and an increase other assets balances during the prior year period. The current year period reduction was the result of a reduction in customer tooling balances while the prior year increase was the result of increases in customer tooling balances. Customer tooling balances consisted of costs incurred for the development of tooling that will be directly reimbursed by our customer whose parts are produced from the tool. Changes in customer tooling balances during each period was the result of the timing of tooling development spending required to meet customer production requirements and related customer billing for cost reimbursement. The quarter over quarter change in accounts payable and accrued liability balances reflected a decrease in working capital requirements in the current year period and a slight increase in working capital requirements in the prior year period. This current period decrease in working capital requirements was the result of increased value added tax payable balances in Mexico resulting from increased sales.

Net cash used by investing activities of \$4.0 million during the current year period and \$7.6 million during the prior year period were the result of capital expenditures made in support of requirements for new product programs and the upgrade and replacement of existing equipment. Prior year period capital expenditures also included \$792,000 related to the construction of a new ADAC-STRATTEC facility and the purchase of related equipment in Leon, Mexico. Refer to discussion under ADAC-STRATTEC LLC Cash Requirements included herein.

Net cash used in financing activities during the current year period of \$1.3 million included repayments of borrowings under credit facilities of \$2.0 million, \$514,000 of regular quarterly dividend payments to shareholders and \$784,000 of dividend payments to non-controlling interests in our subsidiaries, partially offset by \$2 million in additional borrowings under credit facilities. Net cash provided by financing activities of \$7.5 million during the prior year period included \$12.0 million of additional borrowings under credit facilities, which was partially offset by repayments of borrowings under credit facilities of \$2.0 million, \$508,000 of regular quarterly dividend payments to shareholders and \$2.0 million of dividend payments to non-controlling interests in our subsidiaries.

VAST LLC Cash Requirements

No capital contributions were made to VAST LLC during the three month periods ended September 30, 2018 or October 1, 2017. We currently anticipate that both VAST China and Minda-VAST Access Systems have adequate debt facilities in place over the next fiscal year to cover the future operating and capital requirements of each business. During the three months ended September 30, 2018, VAST LLC made capital contributions to Sistema de Acceso Veicular Ltda totaling \$300,000. Due to economic conditions in Brazil, we anticipate Sistema de Acceso Veicular Ltda, will require a capital contribution of approximately \$300,000 collectively by all VAST LLC partners to fund operations during the remainder of fiscal year 2019. STRATTEC's portion of these remaining capital contributions is anticipated to be \$100,000.

ADAC-STRATTEC LLC Cash Requirements

ADAC-STRATTEC de Mexico (ASdM), a wholly owned subsidiary of ADAC-STRATTEC LLC, which is a joint venture between STRATTEC SECURITY CORPORATION and ADAC Automotive, began the construction of a new manufacturing facility in Leon, Mexico during our fiscal 2017 and completed the construction during our fiscal 2018. Accordingly, during our fiscal 2018 the paint system and assembly equipment located at the new facility became fully operational. Total capital expenditures required for the land, facility, paint system, and assembly equipment totaled approximately \$22.5 million. In connection with this facility construction, the ADAC-STRATTEC Credit Facility was amended effective as of March 27, 2018 to increase the borrowing limit to \$30 million until June 30, 2019, at which time the borrowing limit will return to \$25 million. This facility is being used primarily to paint and assemble door handle products. As of fiscal 2018, the ADAC-STRATTEC LLC joint venture had annual net sales of approximately \$89 million. With newly awarded customer business, we anticipate annual net sales will increase to approximately \$110 million during fiscal 2019.

STRATTEC Advanced Logic, LLC Cash Requirements

During all periods presented in this report, STRATTEC provided 100 percent of the financial support to fund the start-up operating losses of SAL LLC through loans due to our joint venture partner's inability to contribute capital to this joint venture. The business of SAL LLC has been wound down to sell only commercial biometric locks. We anticipate STRATTEC will provide minimal to no funding for SAL LLC in fiscal year 2019.

Future Capital Expenditures

We anticipate capital expenditures will be approximately \$12.0 million in fiscal 2019 in support of requirements for new product programs and the upgrade and replacement of existing equipment.

Stock Repurchase Program

Our Board of Directors has authorized a stock repurchase program to buy back outstanding shares of our common stock. Shares authorized for buy back under the program totaled 3,839,395 at September 30, 2018. A total of 3,655,322 shares have been repurchased over the life of the program through September 30, 2018, at a cost of approximately \$136.4 million. No shares were repurchased during the three month periods ended September 30, 2018 or October 1, 2017. Additional repurchases may occur from time to time and are expected to continue to be funded by cash flow from operations and current cash balances. Based on the current economic environment and our preference to conserve cash for other uses, we anticipate modest or no stock repurchase activity for the remainder of fiscal year 2019.

Credit Facilities

STRATTEC has a \$40 million secured revolving credit facility (the “STRATTEC Credit Facility”) with BMO Harris Bank N.A., which expires August 1, 2021. ADAC-STRATTEC LLC has a \$30 million secured revolving credit facility (the “ADAC-STRATTEC Credit Facility”) with BMO Harris Bank N.A., which is guaranteed by STRATTEC and expires August 1, 2020. The ADAC-STRATTEC Credit Facility borrowing limit decreases to \$25 million effective July 1, 2019. Borrowings under either credit facility are secured by our U.S. cash balances, accounts receivable, inventory, and fixed assets located in the U.S. Interest on borrowings under both credit facilities is at varying rates based, at our option, on the London Interbank Offering Rate (“LIBOR”) plus 1.0 percent or the bank’s prime rate. Both credit facilities contain a restrictive financial covenant that requires the applicable borrower to maintain a minimum net worth level. The ADAC-STRATTEC Credit Facility includes an additional restrictive financial covenant that requires the maintenance of a minimum fixed charge coverage ratio. Outstanding borrowings under the STRATTEC Credit Facility totaled \$24 million at September 30, 2018 and \$23 million at July 1, 2018. The average outstanding borrowings and weighted average interest rate on the STRATTEC Credit Facility loans were approximately \$23.8 million and 3.1 percent, respectively, during the three months ended September 30, 2018. Outstanding borrowings under the ADAC-STRATTEC Credit Facility totaled \$27 million at September 30, 2018 and \$28.0 million at July 2, 2017. The average outstanding borrowings and weighted average interest rate on the ADAC-STRATTEC Credit Facility loans were approximately \$28.4 million and 3.1 percent, respectively, during the three months ended September 30, 2018.

Inflation and Other Changes in Prices

Inflation Related Items: Over the past several years, we have been impacted by rising health care costs, which have increased our cost of associate medical coverage. A portion of these increases have been offset by plan design changes and associate wellness initiatives. We have also been impacted by increases in the market price of zinc and brass and inflation in Mexico, which impacts the U. S. dollar costs of our Mexican operations. We have negotiated raw material price adjustment clauses with certain, but not all, of our customers to offset some of the market price fluctuations in the cost of zinc. We have contracts with Bank of Montreal that provide for bi-weekly and monthly Mexican peso currency forward contracts for a portion of our estimated peso denominated operating costs. Refer to discussion under Item 3 Quantitative and Qualitative Disclosures About Market Risk included herein.

Joint Ventures and Majority Owned Subsidiaries

We participate in certain Alliance Agreements with WITTE Automotive (“WITTE”) and ADAC Automotive (“ADAC”). WITTE, of Velbert, Germany, is a privately held automotive supplier. WITTE designs, manufactures and markets automotive components, including locks and keys, hood latches, rear compartment latches, seat back latches, door handles and specialty fasteners. WITTE’s primary market for these products has been Europe. ADAC, of Grand Rapids, Michigan, is a privately held automotive supplier and manufactures engineered products, including door handles and other automotive trim parts, utilizing plastic injection molding, automated painting and various assembly processes.

The Alliance Agreements include a set of cross-licensing agreements for the manufacture, distribution and sale of WITTE products by STRATTEC and ADAC in North America, and the manufacture, distribution and sale of STRATTEC and ADAC products by WITTE in Europe. Additionally, a joint venture company, Vehicle Access Systems Technology LLC (“VAST LLC”), in which WITTE, STRATTEC and ADAC each hold a one-third interest, exists to seek opportunities to manufacture and sell each company’s products in areas of the world outside of North America and Europe.

VAST LLC has investments in Sistema de Acesso Veicular Ltda, VAST Fuzhou, VAST Great Shanghai, VAST Shanghai Co. and Minda-VAST Access Systems. Sistema de Acesso Veicular Ltda is located in Brazil and services customers in South America. VAST Fuzhou, VAST Great Shanghai and VAST Shanghai Co. (collectively known as VAST China), provide a base of operations to service our automotive customers in the Asian market. Minda-VAST Access Systems is based in Pune, India and is a 50:50 joint venture with Minda Management Services Limited, an affiliate of both Minda Corporation Limited and Spark Minda, Ashok Minda Group of New Delhi, India (collectively “Minda”). Minda and its affiliates cater to the needs of all major car, motorcycle, commercial vehicle, tractor and off-road vehicle manufacturers in India. They are a leading manufacturer in the Indian marketplace of security & access products, handles, automotive safety, restraint systems, driver information and telematics systems for both OEMs and the aftermarket. VAST LLC also maintains branch offices in South Korea and Japan in support of customer sales and engineering requirements.

The VAST LLC investments are accounted for using the equity method of accounting. The activities related to the VAST LLC joint ventures resulted in equity earnings of joint ventures to STRATTEC of \$915,000 million during the three months ended September 30, 2018 and \$1.0 million during the three months ended October 1, 2017. During the three months ended September 30, 2018 and October 1, 2017, no capital contributions were made to VAST LLC.

ADAC-STRATTEC LLC, a Delaware limited liability company, was formed in fiscal year 2007 to support injection molding and door handle assembly operations in Mexico. ADAC-STRATTEC LLC was 51 percent owned by STRATTEC and 49 percent owned by ADAC for all periods presented in this report. An additional Mexican entity, ADAC-STRATTEC de Mexico, is wholly owned by ADAC-STRATTEC LLC. ADAC-STRATTEC LLC's financial results are consolidated with the financial results of STRATTEC and resulted in increased net income to STRATTEC of approximately \$575,000 during the three months ended September 30, 2018 and approximately \$416,000 during the three months ended October 1, 2017.

STRATTEC POWER ACCESS LLC ("SPA") was formed in fiscal year 2009 to supply the North American portion of the power sliding door, lift gate and deck lid system access control products which were acquired from Delphi Corporation. SPA was 80 percent owned by STRATTEC and 20 percent owned by WITTE for all periods presented in this report. The financial results of SPA are consolidated with the financial results of STRATTEC and resulted in increased net income to STRATTEC of approximately \$681,000 during the three months ended September 30, 2018 and approximately \$623,000 during the three months ended October 1, 2017.

SAL LLC was formed in fiscal 2013 to introduce a new generation of biometric security products based upon the designs of Actuator Systems LLC, our partner and the owner of the remaining ownership interest. SAL LLC was 51 percent owned by STRATTEC for all periods presented in this report. Our investment in SAL LLC, for which we exercise significant influence but do not control and are not the primary beneficiary, is accounted for using the equity method. The activities related to SAL LLC resulted in equity loss of joint ventures to STRATTEC of approximately \$6,000 during the three months ended September 30, 2018 and approximately \$9,000 during the three months ended October 1, 2017. During all periods presented in this report, 100 percent of the funding for SAL LLC was being made through loans from STRATTEC to SAL LLC. Therefore, for all periods presented in this report, even though STRATTEC maintains a 51 percent ownership interest in SAL LLC, STRATTEC recognized 100 percent of the losses of SAL LLC up to our committed financial support through Equity Earnings (Loss) of Joint Ventures in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income. The business of SAL LLC has been wound down to sell only commercial biometric locks. See further discussion under Equity Earnings (Loss) of Joint Ventures included in Notes to Condensed Consolidated Financial Statements herein.

Item 3 Quantitative and Qualitative Disclosures About Market Risk

Our exposure to market risk is limited to fluctuations in raw material commodity prices, interest rate fluctuations on borrowings under our secured revolving credit facilities and foreign currency exchange rate risk associated with STRATTEC's foreign operations. We do not utilize financial instruments for trading purposes.

Interest Rates: We are subject to interest rate fluctuations on borrowings under our revolving credit facilities. At September 30, 2018, we had \$51 million of outstanding borrowings under our credit facilities. The interest expense related to borrowings under the credit facilities during the three months ended September 30, 2018 was \$407,000. A 10% increase or decrease in the interest rate on our borrowings would not have a material effect on our financial position, results of operations or cash flows.

Foreign Currency: We are subject to foreign currency exchange rate exposure related to the U.S. dollar costs of our manufacturing operations in Mexico. A portion of our manufacturing costs are incurred in Mexican pesos, which causes our earnings and cash flows to fluctuate due to changes in the U.S. dollar/Mexican peso exchange rate. We executed contracts with Bank of Montreal that provide for bi-weekly and monthly Mexican peso currency forward contracts for a portion of our estimated peso denominated operating costs. The peso currency forward contracts include settlement dates that began on October 16, 2015 and end on December 17, 2018. Our objective in entering into these currency forward contracts is to minimize our earnings volatility resulting from changes in exchange rates affecting the U.S. dollar cost of our Mexican operations. The Mexican peso forward contracts are not used for speculative purposes and are not designated as hedges. As a result, all currency forward contracts are recognized in our accompanying condensed consolidated financial statements at fair value and changes in the fair value are reported in current earnings as part of Other (Expense) Income, net.

The following table quantifies the outstanding Mexican peso forward contracts as of September 30, 2018 (thousands of dollars, except average forward contract exchange rates):

	<u>Effective Dates</u>	<u>Notional Amount</u>	<u>Average Forward Contractual Exchange Rate</u>	<u>Fair Value</u>
Buy MXP/Sell USD	October 15, 2018 - December 17, 2018	\$ 3,000	20.02	\$ 186

The fair market value of all outstanding Mexican peso forward contracts in the accompanying Condensed Consolidated Balance Sheets was as follows (thousands of dollars):

	<u>September 30, 2018</u>	<u>July 1, 2017</u>
Not Designated as Hedging Instruments:		
Other Current Assets (Liabilities):		
Mexican Peso Forward Contracts	\$ 186	\$ (39)

The pre-tax effects of the Mexican peso forward contracts are included in Other (Expense) Income, net on the accompanying Condensed Consolidated Statements of Income and Comprehensive Income and consisted of the following (thousands of dollars):

	<u>Three Months Ended</u>	
	<u>September 30, 2018</u>	<u>October 1, 2018</u>
Not Designated as Hedging Instruments:		
Realized Gain	\$ 172	\$ 458
Unrealized Gain (Loss)	\$ 225	\$ (258)

Raw Materials Commodity Prices: Our primary raw materials are high-grade zinc, brass, nickel silver, aluminum, steel and plastic resins. These materials are generally available from a number of suppliers, but we have chosen to concentrate our sourcing with one primary vendor for each commodity or purchased component. We believe our sources of raw materials are reliable and adequate for our needs. However, the development of future sourcing issues related to using existing or alternative raw materials and the global availability of these materials as well as significant fluctuations in the market prices of these materials may have an adverse effect on our financial results if the increased raw material costs cannot be recovered from our customers. Given the significant financial impact on us relating to changes in the cost of our primary raw materials, we now attempt to quote quarterly material price adjustments for changes in our zinc costs in our negotiations with our customers. Our success in obtaining these quarterly price adjustments in our customer contracts is dependent on separate negotiations with each customer. It is not a standard practice for our customers to include such price adjustments in their contracts. We have been successful in obtaining quarterly price adjustments in some of our customer contracts. However, we have not been successful in obtaining the adjustments with all of our customers.

Item 4 Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), that are designed to ensure that information required to be disclosed in the Company's reports filed or submitted under the Exchange Act, are recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that the information required to be disclosed by the Company in reports that it files or submits under the Exchange Act are accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the end of such period, our disclosure controls and procedures were effective at reaching a level of reasonable assurance. It should be noted that in designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost benefit relationship of possible controls and procedures. We have designed our disclosure controls and procedures to reach a level of reasonable assurance of achieving the desired control objectives.

There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during our most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Other Information

Item 1 Legal Proceedings

In the normal course of business, we may be involved in various legal proceedings from time to time. We do not believe we are currently involved in any claim or action the ultimate disposition of which would have a material adverse effect on our financial statements.

Item 1A—Risk Factors

There have been no material changes to the risk factors disclosed in our Form 10-K as filed with the Securities and Exchange Commission on September 6, 2018.

Item 2 Unregistered Sales of Equity Securities and Use of Proceeds—

Our Board of Directors authorized a stock repurchase program on October 16, 1996, and the program was publicly announced on October 17, 1996. The Board of Directors has periodically increased the number of shares authorized for repurchase under the program, most recently in August 2008. The program currently authorizes the repurchase of up to 3,839,395 shares of our common stock from time to time, directly or through brokers or agents, and has no expiration date. Over the life of the repurchase program through September 30, 2018, a total of 3,655,322 shares have been repurchased at a cost of approximately \$136.4 million. No shares were repurchased during the three month period ended September 30, 2018.

Item 3 Defaults Upon Senior Securities—None

Item 4 Mine Safety Disclosures—None

Item 5 Other Information—None

Item 6 Exhibits

(a) Exhibits

10.1 [Amendment No. 5 to Credit Agreement, dated as of September 28, 2018, between STRATTEC SECURITY CORPORATION and BMO Harris Bank N.A., as lender. \(Incorporated by reference from the exhibit to the Form 8-K filed on September 28, 2018\)](#)

31.1 [Rule 13a-14\(a\) Certification for Frank J. Krejci, President and Chief Executive Officer](#)

31.2 [Rule 13a-14\(a\) Certification for Patrick J. Hansen, Chief Financial Officer](#)

32 (1) [18 U.S.C. Section 1350 Certifications](#)

101 The following materials from STRATTEC SECURITY CORPORATION's Quarterly Report on Form 10-Q for the fiscal quarter ended September 30, 2018 formatted in XBRL (eXtensible Business Reporting Language) and furnished electronically herewith: (i) Condensed Consolidated Statements of Income and Comprehensive Income; (ii) Condensed Consolidated Balance Sheets; (iii) Condensed Consolidated Statements of Cash Flows; and (iv) Notes to Condensed Consolidated Financial Statements

(1) This certification is not "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

STRATTEC SECURITY CORPORATION (Registrant)

Date: November 8, 2018

Patrick J. Hansen
Senior Vice President,
Chief Financial Officer,
Treasurer and Secretary
(Principal Accounting and Financial Officer)

CERTIFICATION OF CHIEF EXECUTIVE OFFICER
PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

I, Frank J. Krejci, certify that:

1. I have reviewed this quarterly report on Form 10-Q of STRATTEC SECURITY CORPORATION;

2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:

(a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;

(b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

(d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):

(a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
