#### PROSPECTIVE INFORMATION

A number of the matters and subject areas discussed in this Form 10-Q contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements may be identified by the use of forward-looking words or phrases such as "anticipate," "believe," "would," "expect," "intend," "may," "planned," "potential," "should," "will," and "could," or the negative of these terms or words of similar meaning. These include statements regarding expected future financial results, product offerings, global expansion, liquidity needs, financing ability, planned capital expenditures, management's or the Company's expectations and beliefs, and similar matters discussed in this Form 10-Q. The discussion of such matters and subject areas contained herein is qualified by the inherent risks and uncertainties surrounding future expectations generally, and also may materially differ from the Company's actual future experience.

The Company's business, operations and financial performance are subject to certain risks and uncertainties, which could result in material differences in actual results from the Company's current expectations. These risks and uncertainties include, but are not limited to, general economic conditions, in particular relating to the automotive industry, consumer demand for the Company's and its customers' products, competitive and technological developments, customer purchasing actions, changes in warranty provisions and customers' product recall policies, work stoppages at the Company or at the location of its key customers as a result of labor disputes, foreign currency fluctuations, uncertainties stemming from U.S. trade policies, tariffs and reactions to same from foreign countries, costs of operations, the volume and scope of product returns and warranty claims and other matters described in the section titled "Risk Factors" in the Company's Form 10-K report filed on September 5, 2019 with the Securities and Exchange Commission for the year ended June 30, 2019.

Shareholders, potential investors and other readers are urged to consider these factors carefully in evaluating the forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements. The forward-looking statements made herein are only made as of the date of this Form 10-Q and the Company undertakes no obligation to publicly update such forward-looking statements to reflect subsequent events or circumstances occurring after the date of this Form 10-Q.

# STRATTEC SECURITY CORPORATION AND SUBSIDIARIES Notes to Condensed Consolidated Financial Statements (Unaudited)

#### **Basis of Financial Statements**

STRATTEC SECURITY CORPORATION designs, develops, manufactures and markets automotive access control products including mechanical locks and keys, electronically enhanced locks and keys, steering column and instrument panel ignition lock housings, latches, power sliding door systems, power lift gate systems, power deck lid systems, door handles and related products for primarily North American automotive customers. We also supply global automotive manufacturers through a unique strategic relationship with WITTE Automotive ("WITTE") of Velbert, Germany, and ADAC Automotive ("ADAC") of Grand Rapids, Michigan. Under this relationship, STRATTEC, WITTE and ADAC market the products of each company to global customers under the "VAST Automotive Group" brand name (as more fully described herein). STRATTEC products are shipped to customer locations in the United States, Canada, Mexico, Europe, South America, Korea, China and India, and we provide full service and aftermarket support for each VAST Automotive Group partner's products. We also maintain a 51 percent interest in a joint venture, STRATTEC Advanced Logic, LLC ("SAL LLC"), which exists to introduce a new generation of biometric security products based on the designs of Actuator Systems, our partner and the owner of the remaining ownership interest. The business of SAL LLC has been wound down to sell only commercial biometric locks.

The accompanying condensed consolidated financial statements reflect the consolidated results of STRATTEC SECURITY CORPORATION, its wholly owned Mexican subsidiary, STRATTEC de Mexico, and its majority owned subsidiaries, ADAC-STRATTEC, LLC and STRATTEC POWER ACCESS LLC. STRATTEC SECURITY CORPORATION is located in Milwaukee, Wisconsin. STRATTEC de Mexico is located in Juarez, Mexico. ADAC-STRATTEC, LLC and STRATTEC POWER ACCESS LLC have operations in El Paso, Texas and Juarez and Leon, Mexico. Equity investments in Vehicle Access Systems Technology LLC ("VAST LLC") and SAL LLC, for which we exercise significant influence but do not control and are not the primary beneficiary, are accounted for using the equity method. VAST LLC consists primarily of four wholly owned subsidiaries in China, one wholly owned subsidiary in Brazil and one joint venture entity in India. The results of the VAST LLC foreign subsidiaries and joint venture are reported on a one-month lag basis. SAL LLC is located in El Paso, Texas. We have only one reporting segment.

In the opinion of management, the accompanying condensed consolidated balance sheets as of September 29, 2019 and June 30, 2019, which have been derived from our audited financial statements, and the related unaudited interim condensed consolidated financial statements included herein contain all adjustments, consisting only of normal recurring items, necessary for their fair presentation in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") and in accordance with Rule 10-01 of Regulation S-X. All significant intercompany transactions have been eliminated.

Interim financial results are not necessarily indicative of operating results for an entire year. The information included in this Form 10-Q should be read in conjunction with the financial statements and notes thereto included in the STRATTEC SECURITY CORPORATION 2019 Form 10-K, which was filed with the Securities and Exchange Commission on September 5, 2019.

# **New Accounting Standards**

In February 2016, the FASB issued an update to the accounting guidance for leases. The update increases the transparency and comparability among organizations by requiring lessees to recognize lease assets and lease liabilities on the balance sheet and to disclose key information about leasing arrangements. We implemented the new guidance effective July 1, 2019, the first day of our 2020 fiscal year, by applying the modified retrospective method without restatement of comparative periods' financial information, as permitted by the transition guidance. The adoption of the new guidance had an impact on our balance sheet, but did not have an impact on our consolidated operating results and cash flows. Adoption of the new guidance resulted in the recognition of a right-of-use asset of \$4.1 million and related lease obligation of \$4.1 million for an operating lease as of July 1, 2019. We have no finance leases as of July 1, 2019. As noted above, the adoption of the new guidance did not have a significant impact on our operating results or cash flows. See "Leases" below for additional information.

In August 2017, the FASB issued an update to the accounting for hedging activities. The new guidance eliminates the requirement to separately measure and report hedge ineffectiveness, due to a difference between economic terms of the hedge instrument and the underlying transaction, and generally requires, for qualifying hedges, the entire change in the fair value of a hedging instrument to be presented in the same line as the hedged item in the consolidated statement of income. The standard also modifies the accounting for components excluded from the assessment of hedge effectiveness and simplifies the application of hedge accounting in certain situations. Our July 1, 2019 adoption of the new guidance had no impact to our financial statements.

In June 2018, the FASB issued an update to the accounting for nonemployee share-based payment accounting. The update aligns measurement and classification guidance for share-based payments to nonemployees with the guidance applicable to employees. Under the new guidance, the measurement of equity-classified nonemployee awards is fixed at the date of grant. Our July 1, 2019 adoption of the new guidance had no impact to our financial statements.

#### **Derivative Instruments**

We own and operate manufacturing operations in Mexico. As a result, a portion of our manufacturing costs are incurred in Mexican pesos, which causes our earnings and cash flows to fluctuate due to changes in the U.S. dollar/Mexican peso exchange rate. During the three month period ended September 30, 2018, we had contracts with Bank of Montreal that provided for monthly Mexican peso currency forward contracts for a portion of our estimated peso denominated operating costs. Our objective in entering into these currency forward contracts was to minimize our earnings volatility resulting from changes in exchange rates affecting the U.S. dollar cost of our Mexican operations. The Mexican peso forward contracts were not used for speculative purposes and were not designated as hedges. As a result, all currency forward contracts were recognized in our accompanying condensed consolidated financial statements at fair value and changes in the fair value were reported in current earnings as part of Other Expense, net. No Mexican peso currency forward contracts were in effect during the three month period ended September 29, 2019 and none were outstanding as of September 29, 2019.

The pre-tax effects of the Mexican peso forward contracts are included in Other Expense, net on the accompanying Condensed Consolidated Statements of Income and Comprehensive Income and consisted of the following (thousands of dollars):

		Three Months Ended			
	Septeml 201			September 30, 2018	
Not Designated as Hedging Instruments:					
Realized Gain	\$	_	\$	172	
Unrealized Gain	\$		\$	225	

#### **Fair Value of Financial Instruments**

The fair value of our cash and cash equivalents, accounts receivable, accounts payable and borrowings under our credit facility approximated book value as of September 29, 2019 and June 30, 2019. Fair value is defined as the exchange price that would be received for an asset or paid for a liability (an exit price) in the principal or most advantageous market in an orderly transaction between market participants on the measurement date.

The following table summarizes our financial assets and liabilities measured at fair value on a recurring basis as of September 29, 2019 (in thousands):

	-	Fair Value Inputs  Level 2 Assets: Observable Level 1 Assets: Inputs Other Level 3 A				vel 3 Assets:	
	<u>]</u>	Quoted n Active		Than M Pric		Un	observable Inputs

International			849		_		_
Fixed Income Funds			925		_		_
Cash and Cash Equivalents			_		1		_
Total Assets at Fair Value		5	2,935	\$	1	\$	

The Rabbi Trust assets fund our amended and restated supplemental executive retirement plan and are included in Other Long-term Assets in the accompanying Condensed Consolidated Balance Sheets.

#### **Equity Earnings of Joint Ventures**

We hold a one-third interest in a joint venture company, VAST LLC, with WITTE and ADAC. VAST LLC exists to seek opportunities to manufacture and sell all three companies' products in areas of the world outside of North America and Europe. Our investment in VAST LLC, for which we exercise significant influence but do not control and are not the primary beneficiary, is accounted for using the equity method.

Thurs Mantha Endad

The following are summarized statements of operations for VAST LLC (in thousands):

		Three Months Ended			
	Sep	September 29, 2019			
Net Sales	\$	42,567	\$	40,056

Intercompany Profit Elimination		<u> </u>		4	
STRATTEC's Equity Earnings of VAST LLC	\$	487	\$	915	

The business of our joint venture company, SAL LLC, has been wound down to sell only commercial biometric locks. STRATTEC's equity loss of SAL LLC totaled \$3,000 for the three month period ended September 29, 2019 and \$6,000 for the three month period ended September 30, 2018.

We have sales of component parts to VAST LLC, purchases of component parts from VAST LLC, expenses charged to VAST LLC for engineering and accounting services and expenses charged to us from VAST LLC for general headquarters expenses. The following table summarizes these related party transactions with VAST LLC for the periods indicated below (in thousands):

	Three Months Ended			
		ember 29, 2019		September 30, 2018
Sales to VAST LLC	\$	891	\$	498
Purchases from VAST LLC	\$	97	\$	42
Expenses Charged to VAST LLC	\$	831	\$	345
Expenses Charged from VAST LLC	\$	226	\$	207

#### Leases

We have an operating lease for our El Paso, Texas finished goods and service parts distribution warehouse that has a current lease term through October 2023. This lease includes renewal terms that can extend the lease term for five additional years. For purposes of calculating operating lease obligations, we included the option to extend the lease as it is reasonably certain that we will exercise such option. The lease does not contain material residual value guarantees or restrictive covenants. Operating lease expense is recognized on a straight-line basis over the lease term.

As the lease does not provide an implicit rate, we used our incremental borrowing rate at lease commencement to determine the present value of our lease payments. The incremental borrowing rate is an entity-specific rate which represents the rate of interest we would pay to borrow over a similar term with similar payments.

The operating lease asset and obligation related to our El Paso warehouse lease included in the accompanying condensed balance sheet are presented below (in thousands):

	Sep	tember 29, 2019
Right-of Use Asset Under Operating Lease:		_
Other Long-Term Assets	\$	4,000
Lease Obligation Under Operating Lease:		
Current Liabilities: Accrued Liabilities: Other	\$	331
Other Long-Term Liabilities		3,669
	\$	4,000

Future minimum lease payments, including options to extend that are reasonably certain to be exercised, under the non-cancelable lease are as follows as of September 29, 2019 (in thousands):

2020 (for the remaining nine months)	\$	347
2021		472
2022		484
2023		496
2024		508
Thereafter		2,353
Total Future Minimum Lease Payments	<u> </u>	4,660
Less: Imputed Interest		(660)
Total Lease Obligations	\$	4,000

Future minimum lease payments, excluding options to extend that are reasonably certain to be exercised, prior to the adoption of the new accounting guidance on leases were as follows as of June 30, 2019 (in thousands):

2020	\$ 539
2021	504
2022	495
2023	498
2024	168
Thereafter	_
Total Future Minimum Lease Payments	\$ 2,204

Cash flow information related to the operating lease is shown below (in thousands):

	Three Months Endo September 29, 2019	<u>ed</u>
Operating Cash Flows:  Cash Paid Related to Operating Lease Obligation	\$	113
Non-Cash Activity:	<u></u>	
Right-of-Use Asset Obtained in Exchange for Operating Lease Obligation	\$	

The weighted average lease term and discount rate for the operating lease are shown below:

	2019
Weighted Average Remaining Lease Term (in years)	9.1
Weighted Average Discount Rate	3.3%

Operating lease expense for the three month period ended September 29, 2019 totaled \$113,000.

#### **Credit Facilities**

STRATTEC has a \$40 million secured revolving credit facility (the "STRATTEC Credit Facility") with BMO Harris Bank. ADAC-STRATTEC LLC has a \$25 million secured revolving credit facility (the "ADAC-STRATTEC Credit Facility") with BMO Harris Bank N.A., which is guaranteed by STRATTEC. The credit facilities both expire August 1, 2022. Borrowings under either credit facility are secured by our U.S. cash balances, accounts receivable, inventory, and fixed assets. Interest on borrowings under the STRATTEC Credit Facility and interest on borrowings under the ADAC-STRATTEC Credit Facility prior to December 31, 2018 were at varying rates based, at our option, on the London Interbank Offering Rate ("LIBOR") plus 1.0 percent or the bank's prime rate. Effective December 31 2018, and thereafter, interest on borrowings under the ADAC-STRATTEC Credit Facility is at varying rates based, at our option, on LIBOR plus 1.25 percent or the bank's prime rate. Both credit facilities contain a restrictive financial covenant that requires the applicable borrower to maintain a minimum net worth level. The ADAC-STRATTEC Credit Facility includes an additional restrictive financial covenant that requires the maintenance of a minimum fixed charge coverage ratio. As of September 29, 2019, we were in compliance with all financial covenants required by these credit facilities.

Outstanding borrowings under the credit facilities were as follows (in thousands):

STRATTEC Credit Facility
ADAC-STRATTEC Credit Facility

S	eptember 29, 2019	 June 30, 2019
\$	14,000	\$ 18,000

\$	23 473	\$	28 396	3.5%	3.1%					

Three Months Ended

#### **Commitments and Contingencies**

We are from time to time subject to various legal actions and claims incidental to our business, including those arising out of alleged defects, alleged breaches of contracts, product warranties, intellectual property matters and employment related matters. It is our opinion that the outcome of such matters will not have a material adverse impact on our consolidated financial position, results of operations or cash flows. With respect to warranty matters, although we cannot ensure that future costs of warranty claims by customers will not be material, we believe our established reserves are adequate to cover potential warranty settlements.

In 1995, we recorded a provision of \$3 million for estimated costs to remediate an environmental contamination site at our Milwaukee facility. The facility was contaminated by a solvent spill, which occurred in 1985, from a former above ground solvent storage tank located on the east side of the facility. The reserve was originally established based on third party estimates to adequately cover the cost for active remediation of the contamination. Due to changing technology and related costs associated with active remediation of the contamination, in fiscal 2010, the reserve was adjusted based on updated third party estimates to adequately cover the cost for active remediation of the contamination. Additionally, in fiscal 2016, we obtained updated third party estimates for adequately covering the cost for active remediation of this contamination. Based upon the updated estimates, no further adjustment to the reserve was required. From 1995 through September 29, 2019, costs of approximately \$600,000 have been incurred related to the installation of monitoring wells on the property and ongoing monitoring costs. We monitor and evaluate the site with the use of these groundwater monitoring wells. An environmental consultant samples these wells one or two times a year to determine the status of the contamination and the potential for remediation of the contamination by natural attenuation, the dissipation of the contamination over time to concentrations below applicable standards. If such sampling evidences a sufficient degree of and trend toward natural attenuation of the contamination at the site, we may be able to obtain a closure letter from the regulatory authorities resolving the issue without the need for active remediation. If a sufficient degree and trend toward natural attenuation is not evidenced by sampling, a more active form of remediation beyond natural attenuation may be required. The sampling has not yet satisfied all of the requirements for closure by natural attenuation. As a result, sampling continues and the reserve remains at an amount to reflect our estimated cost of active remediation. The reserve is not measured on a discounted basis. We believe, based on findings-to-date and known environmental regulations, that the remaining environmental reserve of \$1.3 million at September 29, 2019 is adequate.

# Shareholders' Equity

A summary of activity impacting shareholders' equity for the three month periods ended September 29, 2019 and September 30, 2018 were as follows (in thousands):

# **Revenue from Contracts with Customers**

We generate revenue from the production of parts sold to automotive and light-truck Original Equipment Manufacturers ("OEMs"), or Tier 1 suppliers at the direction of the OEM, under long-term supply agreements supporting new vehicle production. Such agreements also require related production of service parts subsequent to the initial vehicle production periods. Additionally, we generate revenue from the production of parts sold in aftermarket service channels and to non-automotive commercial customers.

#### Contract Balances:

We have no material contract assets as of September 29, 2019. Contract liability balances primarily include discounts recognized as a reduction in sales at the point of revenue recognition, but which will be applied by the customer agreement after the end of the reporting period. The activity related to contract liability balances during the three month period ended September 29, 2019 was as follows (thousands of dollars):

Balance, June 30, 2019	\$ 932
Discounts Recorded as a Reduction in Sales	495
Payments of Discounts to Customers	(915)
Other	(6)
Balance, September 29, 2019	\$ 506

#### Revenue by Product Group and Customer:

	\$	119,962	\$	117,159		

# Other Expense, net

Net other expense included in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income primarily included foreign currency transaction gains and losses, realized and unrealized losses on our Mexican peso currency forward contracts, net periodic pension and postretirement benefit (costs) credits, other than the service cost component, related to our pension and postretirement plans and Rabbi Trust gains and losses. Foreign currency transaction gains and losses resulted from activity associated with foreign denominated assets held by our Mexican subsidiaries. We entered into the Mexican Peso currency forward contracts to minimize earnings volatility resulting from changes in exchange rates affecting the U.S. dollar cost of our Mexican operations. The Rabbi Trust assets fund our amended and restated supplemental executive retirement plan. The investments held in this Trust are considered trading securities.

The impact of these items for each of the periods presented was as follows (in thousands):

		1111 CC 11101	idis Liided	
	Sej	otember 29, 2019		ember 30, 2018

Rabbi Trust (Loss) Gain		(2)		79
Other		107		25
	\$	(97)	\$	(245)

Three Months Ended

#### **Income Taxes**

Our effective tax rate was 10.0% and 0.5% for the three months ended September 29, 2019 and September 30, 2018, respectively. The effective tax rate for the three months ended September 29, 2019 was higher when compared to the three months ended September 30, 2018 due to a larger tax benefit in 2018 related to the impact of the global intangible low-taxed income ("GILTI") provisions and due to a higher R&D tax credit benefit. Our income tax provision for the three month period ended September 30, 2018 was impacted by a discrete tax benefit of \$372,000, which represents measurement period adjustments to the one-time transition tax on non-previously taxed post 1986 accumulated foreign earnings occurring as a result of the enactment of the Tax Cuts and Jobs Act of 2017. Our income tax provisions for the three month periods ended September 29, 2019 and September 30, 2018 were also affected by the non-controlling interest portion of our pre-tax income. The non-controlling interest impacts the effective tax rate as ADAC-STRATTEC LLC and STRATTEC POWER ACCESS LLC entities are taxed as partnerships for U.S. tax purposes.

#### **Earnings Per Share (EPS)**

Basic earnings per share is computed on the basis of the weighted average number of shares of common stock outstanding during the applicable period. Diluted earnings per share is computed on the basis of the weighted average number of shares of common stock plus the potential dilutive common shares outstanding during the applicable period using the treasury stock method. Potential dilutive common shares include outstanding stock options and unvested restricted stock awards.

A reconciliation of the components of the basic and diluted per-share computations follows (in thousands, except per share amounts):

	Three Months Ended									
		September 29, 2019					September 30, 2018			
	Ne	tincome	Shares	Per-Share Amount		Ne	et income	Shares	]	Per-Share Amount
Basic Earnings Per Share	\$	1,244	3,710	\$	0.34	\$	3,467	3,652	\$	0.95
Stock Option and Restricted										
Stock Awards			18				<u> </u>	59		
Diluted Earnings Per Share	\$	1,244	3,728	\$	0.33	\$	3,467	3,711	\$	0.93

The calculation of earnings per share excluded 90,860 and 41,200 share-based payment awards for the quarters ended September 29, 2019 and September 30, 2018, respectively, because their inclusion would have been anti-dilutive.

#### **Stock-based Compensation**

We maintain an omnibus stock incentive plan. This plan provides for the granting of stock options, shares of restricted stock and stock appreciation rights. As of September 29, 2019, the Board of Directors had designated 1,850,000 shares of common stock available for the grant of awards under the plan. Remaining shares available to be granted under the plan as of September 29, 2019 were 110,814. Awards that expire or are canceled without delivery of shares become available for re-issuance under the plan. We issue new shares of common stock to satisfy stock option exercises.

Nonqualified and incentive stock options and shares of restricted stock have been granted to our officers, outside directors and specified associates under our stock incentive plan. Stock options granted under the plan may not be issued with an exercise price less than the fair market value of the common stock on the date the option is granted. Stock options become exercisable as determined at the date of grant by the Compensation Committee of the Board of Directors. The options expire 10 years after the grant date unless an earlier expiration date is set at the time of grant. The options vest 1 to 4 years after the date of grant as determined by the Compensation Committee of the Board of Directors. Shares of restricted stock granted under the plan are subject to vesting criteria determined by the Compensation Committee of the Board of Directors at the time the shares are granted and have a minimum vesting period of one year from the date of grant. Unvested restricted shares granted have voting rights, regardless of whether the shares are vested or unvested, but only have the right to receive cash dividends after such shares become vested. Restricted stock grants vest 1 to 5 years after the date of grant as determined by the Compensation Committee of the Board of Directors.

The fair value of each stock option grant was estimated as of the date of grant using the Black-Scholes pricing model. The fair value of each restricted stock grant was based on the market price of the underlying common stock as of the date of grant. The resulting compensation cost for fixed awards with graded vesting schedules is amortized on a straight line basis over the vesting period for the entire award.

A summary of stock option activity under our stock incentive plan for the three months ended September 29, 2019 was as follows:

	Shares	Av	eighted verage cise Price	Average Remaining Contractual Term (years)	Aggregate Intrinsic Value 1 thousands)	
Outstanding, June 30, 2019	117,360	\$	31.85			
Exercised	(12,000)	\$	18.49			
Outstanding, September 29, 2019	105,360	\$	33.37	2.8	\$ 33	
Exercisable, September 29, 2019	105,360	\$	33.37	2.8	\$ 33	

The intrinsic value of stock options exercised and the fair value of stock options that vested during the three month periods presented below were as follows (in thousands):

	 Three Months Ended				
	September 29, 2019		ptember 30, 2018		
Intrinsic Value of Options Exercised	\$ 37	\$			
Fair Value of Stock Options Vesting	\$ _	\$	_		

No options were granted during the three month periods ended September 29, 2019 or September 30, 2018.

A summary of restricted stock activity under our omnibus stock incentive plan for the three months ended September 29, 2019 was as follows:

Weighted

	Shares			
Nonvested Balance, June 30, 2019	63,757	\$	39.47	
Granted	39,150	\$	21.80	
Vested	(27,318)	\$	37.86	
Forfeited	(675)	\$	37.01	
Nonvested Balance, September 29, 2019	74,914	\$	30.84	

As of September 29, 2019, all compensation cost related to outstanding stock options granted under our omnibus stock incentive plan has been recognized. As of September 29, 2019, there was approximately \$1.3 million of total unrecognized compensation cost related to unvested restricted stock grants outstanding under the plan. This cost is expected to be recognized over a remaining weighted average period of 1 year. Total unrecognized compensation cost will be adjusted for any future changes in estimated and actual forfeitures of awards granted under our omnibus stock incentive plan.

#### **Pension and Postretirement Benefits**

We have a qualified, noncontributory defined benefit pension plan ("Qualified Pension Plan") covering substantially all U.S. associates employed by us prior to January 1, 2010. Effective December 31, 2009, the Board of Directors amended the Qualified Pension Plan to freeze benefit accruals and future eligibility. The Board of Directors has subsequently approved to proceed with the termination of the Qualified Pension Plan. During the quarter ended December 30, 2018, we completed a substantial portion of terminating the Qualified Pension Plan. In connection with the termination of the Qualified Pension Plan, distributions from the Qualified Pension Plan trust were made during the three month period ended December 30, 2018 to participants who elected lump-sum distributions. Additionally, during the three months ended December 30, 2018, we entered into an agreement with an insurance company to purchase from us, through a series of annuity contracts, our remaining obligations under the Qualified Pension Plan and, as a result, we settled the remaining obligations under the plan for the remaining participants utilizing funds available in the Qualified Pension Plan trust. No additional cash contributions to the trust were required to settle the pension obligations. As a result of these actions, a non-cash pre-tax settlement charge of \$31.9 million was recorded during fiscal 2019. A non-cash compensation expense charge of \$4.2 million was also recorded during fiscal 2019 related to the future transfer of the excess assets in the Qualified Pension Plan to a STRATTEC defined contribution plan for subsequent pay-out to eligible STRATTEC employees based on a plan approved by the Board of Directors in June 2019. An additional \$2.2 million non-cash compensation expense charge was recorded during the three month period ended September 29, 2019 and an additional \$2.1 million non-cash compensation expense charge is expected to be recorded in the three month period ending December 29, 2019, which are both related to this future

We have historically had in place a noncontributory supplemental executive retirement plan ("SERP"), which prior to January 1, 2014 was a nonqualified defined benefit plan that essentially mirrored the Qualified Pension Plan, but provided benefits in excess of certain limits placed on our Qualified Pension Plan by the Internal Revenue Code. As noted above, we froze our Qualified Pension Plan effective as of December 31, 2009 and the SERP provided benefits to participants as if the Qualified Pension Plan had not been frozen. Because the Qualified Pension Plan was frozen and because new employees were not eligible to participate in the Qualified Pension Plan, our Board of Directors adopted amendments to the SERP on October 8, 2013 that were effective as of December 31, 2013 to simplify the SERP calculation. The SERP is funded through a Rabbi Trust with BMO Harris Bank N.A. Under the amended SERP, participants received an accrued lump-sum benefit as of December 31, 2013, which was credited to each participant's account. Subsequent to December 31, 2013, each eligible participant received, and currently receives, a supplemental retirement benefit equal to the foregoing lump sum benefit, plus an annual benefit accrual equal to 8 percent of the participant's base salary and cash bonus, plus annual credited interest on the participant's account balance. All then current participants as of December 31, 2013 are fully vested in their account balances with any new individuals participating in the SERP effective on or after January 1, 2014 being subject to a five year vesting period. The SERP, which is considered a nonqualified defined benefit plan under applicable rules and regulations of the Internal Revenue Code, will continue to be funded through use of a Rabbi Trust to hold investment assets to be used in part to fund any future required lump sum benefit payments to participants. The Rabbi Trust assets had a value of \$2.9 million at both September 29, 2019 and at June 30, 2019 and are included in Other Long-Term Asset

We also sponsor a postretirement health care plan for all U.S. associates hired prior to June 1, 2001. The expected cost of retiree health care benefits is recognized during the years the associates who are covered under the plan render service. Effective January 1, 2010, an amendment to the postretirement health care plan limited the benefit for future eligible retirees to \$4,000 per plan year and the benefit is further subject to a maximum five year coverage period based on the associate's retirement date and age. The postretirement health care plan is unfunded.

The service cost component of the net periodic benefit costs under these plans is allocated between Cost of Goods Sold and Engineering, Selling and Administrative Expenses while the remaining components of the net periodic benefit costs are included in Other Expense, net in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income.

The following table summarizes the net periodic benefit cost recognized for each of the periods indicated under these plans (in thousands):

## STRATTEC SECURITY CORPORATION AND SUBSIDIARIES MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis should be read in conjunction with STRATTEC SECURITY CORPORATION's accompanying Condensed Consolidated Financial Statements and Notes thereto and its 2019 Form 10-K, which was filed with the Securities and Exchange Commission on September 5, 2019. Unless otherwise indicated, all references to quarters and years refer to fiscal quarters and fiscal years.

#### Outlook

During the fiscal years ended June 30, 2019 and July 1, 2018, we experienced stronger sales demand for our components from our major North American automotive customers, Fiat Chrysler Automobiles, General Motors Company and Ford Motor Company, as it relates to light trucks and both sport and car based utility vehicles in comparison to passenger cars, which was likely influenced by both lower gas prices and consumer preferences. If gas prices continue to remain flat or slightly higher over the next few years, we anticipate this consumer buying trend will continue. As we look out in calendar 2020, the current sales projections from our third party forecasting service indicate that North American light vehicle production will remain flat or slightly lower than the levels experienced during calendar year 2019. The estimated impact of the General Motors UAW strike, which has reduced sales in our fiscal first and second quarters to date, may result in reduced sales in our entire fiscal year 2020 by approximately \$10 million to \$12 million if these orders are not replenished later during fiscal 2020 once the strike ends.

As described in "Pension and Postretirement Benefits" in the Notes to Condensed Consolidated Financial Statements in this Form 10-Q, our Board of Directors has approved proceeding with the termination of the STRATTEC qualified, noncontributory defined benefit pension plan. During our fiscal 2019, we completed a substantial portion of the termination by (1) making distributions from the qualified pension plan trust to participants electing lump sum distributions and (2) entering into an agreement with an insurance company whereby we sold, through a series of annuity contracts, our remaining obligations under the qualified pension plan and, therefore, settled the remaining obligations under this plan with use of funds remaining in the plan. No additional cash contributions to the pension trust were required from STRATTEC to settle these pension obligations. In connection with those actions, we incurred a pre-tax settlement charge of \$31.9 million during fiscal 2019. We also incurred a \$4.2 million noncash compensation charge during fiscal 2019 related to the future transfer of the remaining excess pension plan assets to a STRATTEC defined contribution plan for subsequent pay-out to eligible participating STRATTEC employees based on a plan approved by the Board of Directors in June 2019. An additional \$2.2 million non-cash compensation expense charge was recorded during the three month period ended September 29, 2019 related to the future transfer and pay-out of the excess pension plan assets, which reduced our diluted earnings per share during the period by \$0.46. An additional \$2.1 million non-cash compensation expense charge related to this future transfer and pay-out of the excess pension plan assets is expected to be recorded in the three month period ending December 29, 2019.

# **Analysis of Results of Operations**

Three months ended September 29, 2019 compared to the three months ended September 30, 2018

 Three Montts Ended

 September 29, 2019
 September 30, 2018

 Net Sales (in millions)
 \$ 120.0
 \$ 117.2

Net sales to each of our customers or customer groups in the current year quarter and prior year quarter were as follows (in millions):

	Three Months Ended			
	Sept	ember 29, 2019	September 30, 2018	
Fiat Chrysler Automobiles	\$	25.5	\$	30.3
General Motors Company		33.8		25.3
Ford Motor Company		15.8		15.5
Tier 1 Customers		17.8		17.8
Commercial and Other OEM Customers		21.4		21.0
Hyundai / Kia		5.7		7.3
	\$	120.0	\$	117.2

Sales to Fiat Chrysler Automobiles decreased in the current year quarter as compared to the prior year quarter due to lower vehicle production volumes on the FCA minivans for which we supply multiple components. The increase in sales to General Motors Company in the current year quarter as compared to the prior year quarter was attributed to higher production volumes and content on products we supply to their business. The estimated impact of the General Motors UAW strike reduced our net sales by \$3 million in the current year quarter. Sales to Ford Motor Company and Tier 1 customers were flat in the current year quarter compared to the prior year quarter. Sales to Commercial and Other OEM Customers during the current year quarter increased slightly in comparison to the prior year quarter due to higher sales volumes related to our Aftermarket business. These Commercial and Other OEM Customers, along with our Tier 1 Customers, represent purchasers of vehicle access control products, such as latches, fobs, driver controls and door handles, that we have developed in recent years to complement our historic core business of locks and keys. The decreased sales to Hyundai / Kia in the current year quarter as compared to the prior year quarter were due to lower levels of production of the Kia Sedona minivan for which we primarily supply power sliding door components.

	 Three Months Ended			
	September 29, 2019		September 30, 2018	
Cost of Goods Sold (in millions)	\$ 104.1	\$	102.0	

Direct material costs are the most significant component of our cost of goods sold and comprised \$68.5 million or 65.8 percent of our cost of goods sold in the current year quarter. The increase in our direct material costs between these quarters of \$0.7 million or 1.0 percent was due to increased sales volumes in the current year quarter as compared to the prior year quarter, partially offset by reduced scrap costs resulting from efforts to reduce nonconforming costs resulting from internal manufacturing process quality issues. The reduction in our direct material costs as a percentage of our cost of goods sold in the current year quarter as compared to the prior year quarter was due to a \$1.4 million increase in our cost of goods sold due to a non-cash compensation expense charge in the current year quarter related to the future transfer of excess Qualified Pension Plan assets, resulting from the termination of the Qualified Pension Plan, to a STRATTEC defined contribution plan for subsequent pay-out to eligible STRATTEC employees. Without this non-cash compensation expense charge, the direct material costs as a percentage of our cost of goods sold in the current year quarter would have been 66.7 percent.

The remaining components of our cost of goods sold consist of labor and overhead costs which increased \$1.4 million or 4.1 percent to \$35.6 million in the current year quarter from \$34.2 million in the prior year quarter. Current year quarter costs include a \$1.4 million non-cash compensation expense charge related to the future transfer of excess Qualified Pension Plan assets as described above. Additionally, labor and overhead costs increased in the current year quarter as compared to the prior year quarter due to an increase in the variable portion of these costs resulting from the increase in sales volumes between the three month periods and an increase in the Mexican minimum wage for our Mexican workforce effective January 1, 2019. These cost increases were offset by improvements in our operations at our paint and assembly facility in Leon, Mexico and the impact of a favorable Mexican peso to U.S. dollar exchange rate affecting our operations in Mexico. The U.S. dollar value of our Mexican operations was favorably impacted by approximately \$441,000 in the current year quarter as compared to the prior year quarter due to a favorable Mexican peso to U.S. dollar exchange rate between these quarterly periods. The average U.S. dollar / Mexican peso exchange rate increased to approximately 19.61 pesos to the dollar in the current year quarter from approximately 18.96 pesos to the dollar in the prior year quarter.

	 Three Months Ended				
	nber 29, 019		mber 30, 2018		
Gross Profit (in millions)	\$ 15.9	\$	15.		
Gross Profit as a percentage of net sales	13.2%		13.		

Gross profit dollars increased in the current year quarter as compared to the prior year quarter as a result of an increase in sales partially offset by an increase in cost of goods sold, as discussed above. Gross profit as a percentage of net sales increased slightly between periods. The improvement was due to improvements in our operations at our paint and assembly facility in Leon, Mexico and the impact of a favorable Mexican peso to U.S. dollar exchange rate affecting our operations in Mexico, which favorable impacts were mostly offset by a \$1.4 million non-cash compensation expense charge related to the future transfer of excess Qualified Pension Plan assets and an increase in the Mexican minimum wage for our Mexican workforce effective January 1, 2019, all as discussed above.

Engineering, selling and administrative expenses in the current year quarter and prior year quarter were as follows:

	 Three Months Ended				
Expenses (in millions)	September 29, 2019				
	\$ 13.0	\$	11.0		
Expenses as a percentage of net sales	10.8%		9.4%		

Engineering, selling and administrative expenses in the current year quarter increased in comparison to the prior year quarter as a result of a \$862,000 non-cash compensation expense charge related to the future transfer of excess Qualified Pension Plan assets, as discussed above, and higher outside expenditures on new product development costs associated with utilizing third party vendors for a portion of our development work.

Income from operations was \$2.9 million in the current year quarter compared to \$4.2 million in the prior year quarter as an increase in engineering, selling and administrative expenses was partially offset by an increase in gross margin dollars, all as discussed above.

The equity earnings (loss) of joint ventures was comprised of the following in the current year quarter and prior year quarter (in thousands):

	Three Mondis Ended			
		nber 29, 019		ember 30, 2018
Vehicle Access Systems Technology LLC	\$	487	\$	915
STRATTEC Advanced Logic, LLC		(3)		(6)
	\$	484	\$	909

Lower profitability from our Vehicle Access Systems Technology LLC ("VAST LLC") joint ventures is due to lower profitability in our VAST China operation resulting from higher development costs for new programs and costs associated with breaking ground for a new plant in Jingzhou, China, which we believe will give VAST added capacity, efficiencies, and a broader geographic footprint in the China market going forward. Our VAST LLC joint venture in Brazil continues to report losses due to our limited amount of business in that region. The business of SAL LLC has been wound down to sell only commercial biometric locks.

Included in Other Expense, net in the current year quarter and prior year quarter were the following items (in thousands):

	Tiffee Mondis Ended			
		mber 29, 2019		ember 30, 2018
Foreign Currency Transaction Loss	\$	(85)	\$	(428)
Unrealized Gain on Peso Forward Contracts		-		225
Realized Gain on Peso Forward Contracts		-		172
Pension and Postretirement Plans Cost		(117)		(318)
Rabbi Trust (Loss) Gain		(2)		79
Other		107		25
	\$	(97)	\$	(245)

Foreign currency transaction losses during the current year quarter and prior year quarter resulted from activity associated with foreign denominated assets held by our Mexican subsidiaries. We entered into the Mexican peso currency forward contracts to minimize earnings volatility resulting from changes in exchange rates affecting the U.S. dollar cost of our Mexican operations. Pension and postretirement plan impacts include the components of net periodic benefit cost other than the service cost component. Our Rabbi Trust assets fund our amended and restated supplemental executive retirement plan. The investments held in the Trust are considered trading securities.

#### **Income Taxes**

Our effective tax rate was 10.0% and 0.5% for the three months ended September 29, 2019 and September 30, 2018, respectively. The effective tax rate for the three months ended September 29, 2019 was higher when compared to the three months ended September 30, 2018 due to a larger tax benefit in 2018 related to the impact of the global intangible low-taxed income ("GILTI") provisions and due to a higher R&D tax credit benefit. Our income tax provision for the three month period ended September 30, 2018 was impacted by a discrete tax benefit of \$372,000, which represents measurement period adjustments to the one-time transition tax on non-previously taxed post 1986 accumulated foreign earnings occurring as a result of the enactment of the Tax Cuts and Jobs Act of 2017. Our income tax provisions for the three month periods ended September 29, 2019 and September 30, 2018 were also affected by the non-controlling interest portion of our pre-tax income. The non-controlling interest impacts the effective tax rate as ADAC-STRATTEC LLC and STRATTEC POWER ACCESS LLC entities are taxed as partnerships for U.S. tax purposes.

## **Liquidity and Capital Resources**

### **Outstanding Receivable Balances from Major Customers**

Our primary source of cash flow is from our major customers, which include Fiat Chrysler Automobiles, General Motors Company and Ford Motor Company. As of the date of filing this Form 10-Q with the Securities and Exchange Commission, all of our major customers are making payments on their outstanding accounts receivable in accordance with the payment terms included on their purchase orders. A summary of our outstanding receivable balances from our major customers as of September 29, 2019 was as follows (in millions):

Fiat Chrysler Automobiles	\$ 18.4
General Motors Company	\$ 23.1
Ford Motor Company	\$ 9.5

#### **Cash Balances in Mexico**

We earn a portion of our operating income in Mexico. As of September 29, 2019, \$3.2 million of our \$11.2 million cash and cash equivalents balance was held in Mexico. These funds are available for repatriation as deemed necessary.

#### **Cash Flow Analysis**

	Three Months Ended			
		mber 29, 2019	September 30, 2018	
Cash Flows from (in millions):				
Operating Activities	\$	15.0	\$	7.8
Investing Activities	\$	(4.3)	\$	(4.0)
Financing Activities	\$	(7.3)	\$	(1.3)

The increase in cash provided by operating activities between periods reflected a net reduction in our working capital requirements between periods of \$5.6 million, with the decrease in our working capital requirements being made up of the following working capital changes (in millions):

	Increase (Decrease) in Working Capital Requirements					
	Three Months Ended					
	September 29, 2019		September 30, 2018		Change	
Accounts Receivable	\$	(5.0)	\$	4.4	\$	(9.4)
Inventory	\$	4.2	\$	(0.4)	\$	4.6
Other Assets	\$	(3.2)	\$	(2.7)	\$	(0.5)
Accounts Payable and Accrued Liabilities	\$	(1.7)	\$	(1.4)	\$	(0.3)
	20					

The period over period change in the accounts receivable balances reflected a reduction in our accounts receivable balances during the current year period and an increase in our accounts receivable balances during prior year period. The period over period change is the result of the amount and timing of sales during each quarter. The reduction in accounts receivable balances during the current year period reflected reduced sales levels toward the end of our June 2019 quarter. The increase in accounts receivable balances during the prior year period reflected increased sales levels toward the end of our September 2018 quarter as compared to the end of our June 2018 quarter. The period over period change in inventory reflected an increase in inventory balances during the current year period, which was the result of an inventory build-up of General Motors components stemming from the impacts of the General Motors strike. The period over period change in other assets reflected a reduction in our other assets balances in both the current year period and the prior year period. During both periods, the reductions were driven by lower customer tooling balances. Customer tooling balances consisted of costs incurred for the development of tooling that will be directly reimbursed by our customer whose parts are produced from the tool. Changes in customer tooling balances during each period was the result of the timing of tooling development spending required to meet customer production requirements and related customer billing for tooling cost reimbursement. The period over period change in accounts payable and accrued liability balances reflected a reduction in working capital requirements during each period. The current year period reduction in working capital requirements was the result of an increase in accounts payable balances during the period, which resulted from the timing of purchases and payments with our vendors based on normal payment terms. The prior year period reduction in working capital requirements was

Net cash used by investing activities of \$4.3 million during the current year period and \$4.0 million during the prior year period were the result of capital expenditures made in support of requirements for new product programs and the upgrade and replacement of existing equipment.

Net cash used in financing activities during the current year period of \$7.3 million included repayments of borrowings under credit facilities of \$6.0 million, \$522,000 of regular quarterly dividend payments to shareholders and \$980,000 of dividend payments to non-controlling interests in our subsidiaries, partially offset by \$239,000 received for the exercise of stock options under our stock incentive plan and our employee stock purchase plan. Net cash used in financing activities of \$1.3 million during the prior year period included repayments of borrowings under credit facilities of \$2.0 million, \$514,000 of regular quarterly dividend payments to shareholders and \$784,000 of dividend payments to non-controlling interests in our subsidiaries, partially offset by \$2 million in additional borrowings under credit facilities.

#### **VAST LLC Cash Requirements**

We currently anticipate that both VAST China and Minda-VAST Access Systems have adequate debt facilities in place over the next fiscal year to cover the future operating and capital requirements of each business. No capital contributions were made to VAST LLC during the three months ended September 29, 2019 or September 30, 2018. We anticipate the Brazilian entity will require capital contributions of approximately \$600,000 collectively by all VAST partners to fund operations through calendar 2020. STRATTEC's portion of the capital contributions is anticipated to be \$200,000.

#### STRATTEC Advanced Logic, LLC Cash Requirements

During all periods presented in this report, STRATTEC provided 100 percent of the financial support to fund the start-up operating losses of SAL LLC through loans due to our joint venture partner's inability to contribute capital to this joint venture. The business of SAL LLC has been wound down to sell only commercial biometric locks. We anticipate STRATTEC will provide minimal to no funding for SAL LLC in fiscal year 2020.

## **Future Capital Expenditures**

We anticipate capital expenditures will be approximately \$15 million in fiscal 2020 in support of requirements for new product programs and the upgrade and replacement of existing equipment.

#### **Stock Repurchase Program**

Our Board of Directors has authorized a stock repurchase program to buy back outstanding shares of our common stock. Shares authorized for buy back under the program totaled 3,839,395 at September 29, 2019. A total of 3,655,322 shares have been repurchased over the life of the program through September 29, 2019, at a cost of approximately \$136.4 million. No shares were repurchased during the three month periods ended September 29, 2019 or September 30, 2018. Additional repurchases may occur from time to time and are expected to continue to be funded by cash flow from operations and current cash balances. Based on the current economic environment and our preference to conserve cash for other uses, we anticipate modest or no stock repurchase activity for the remainder of fiscal year 2020.

#### **Credit Facilities**

STRATTEC has a \$40 million secured revolving credit facility (the "STRATTEC Credit Facility") with BMO Harris Bank N.A. ADAC-STRATTEC LLC has a \$25 million secured revolving credit facility (the "ADAC-STRATTEC Credit Facility") with BMO Harris Bank N.A., which is guaranteed by STRATTEC. The credit facilities both expire August 1, 2022. Borrowings under either credit facility are secured by our U.S. cash balances, accounts receivable, inventory, and fixed assets located in the U.S. Interest on borrowings under the STRATTEC Credit Facility and interest on borrowings under the ADAC-STRATTEC Credit Facility prior to December 31, 2018 were at varying rates based, at our option, on the London Interbank Offering Rate ("LIBOR") plus 1.0 percent or the bank's prime rate. Effective December 31, 2018 and thereafter, interest on borrowings under the ADAC-STRATTEC Credit Facility is at varying rates based, at our option, on LIBOR plus 1.25 percent or the bank's prime rate. Both credit facilities contain a restrictive financial covenant that requires the applicable borrower to maintain a minimum net worth level. The ADAC-STRATTEC Credit Facility includes an additional restrictive financial covenant that requires the maintenance of a minimum fixed charge coverage ratio. Outstanding borrowings under the STRATTEC Credit Facility totaled \$14 million at September 29, 2019 and \$18 million at June 30, 2019. The average outstanding borrowings and weighted average interest rate on the STRATTEC Credit Facility loans were approximately \$16.0 million and 3.3 percent, respectively, during the three months ended September 29, 2019. Outstanding borrowings and weighted average interest rate on the ADAC-STRATTEC Credit Facility loans were approximately \$23.5 million and 3.5 percent, respectively, during the three months ended September 29, 2019.

#### **Inflation and Other Changes in Prices**

Inflation Related Items: Over the past several years, we have been impacted by rising health care costs, which have increased our cost of associate medical coverage. A portion of these increases have been offset by plan design changes and associate wellness initiatives. We have also been impacted by increases in the market price of zinc and brass and inflation in Mexico, which impacts the U. S. dollar costs of our Mexican operations. We have negotiated raw material price adjustment clauses with certain, but not all, of our customers to offset some of the market price fluctuations in the cost of zinc. We have from time to time entered into contracts with Bank of Montreal that provide for bi-weekly and monthly Mexican peso currency forward contracts for a portion of our estimated peso denominated operating costs to minimize our earnings volatility resulting from changes in exchange rates affecting the U.S. dollar cost of our Mexican operations. Refer to discussion under Notes to Condensed Consolidated Financial Statements: Derivative Instruments included herein.

# Joint Ventures and Majority Owned Subsidiaries

We participate in certain Alliance Agreements with WITTE Automotive ("WITTE") and ADAC Automotive ("ADAC"). WITTE, of Velbert, Germany, is a privately held automotive supplier. WITTE designs, manufactures and markets automotive components, including locks and keys, hood latches, rear compartment latches, seat back latches, door handles and specialty fasteners. WITTE's primary market for these products has been Europe. ADAC, of Grand Rapids, Michigan, is a privately held automotive supplier and manufactures engineered products, including door handles and other automotive trim parts, utilizing plastic injection molding, automated painting and various assembly processes.

The Alliance Agreements include a set of cross-licensing agreements for the manufacture, distribution and sale of WITTE products by STRATTEC and ADAC in North America, and the manufacture, distribution and sale of STRATTEC and ADAC products by WITTE in Europe. Additionally, a joint venture company, Vehicle Access Systems Technology LLC ("VAST LLC"), in which WITTE, STRATTEC and ADAC each hold a one-third interest, exists to seek opportunities to manufacture and sell each company's products in areas of the world outside of North America and Europe.

VAST LLC has investments in Sistema de Acesso Veicular Ltda, VAST Fuzhou, VAST Great Shanghai, VAST Shanghai Co., VAST Jingzhou Co. Ltd., and Minda-VAST Access Systems. Sistema de Acesso Veicular Ltda is located in Brazil and services customers in South America. VAST Fuzhou, VAST Great Shanghai, VAST Shanghai Co., and VAST Jingzhou Co. Ltd. (collectively known as VAST China), provide a base of operations to service our automotive customers in the Asian market. Minda-VAST Access Systems is based in Pune, India and is a 50:50 joint venture with Minda Management Services Limited, an affiliate of both Minda Corporation Limited and Spark Minda, Ashok Minda Group of New Delhi, India (collectively "Minda"). Minda and its affiliates cater to the needs of all major car, motorcycle, commercial vehicle, tractor and off-road vehicle manufacturers in India. They are a leading manufacturer in the Indian marketplace of security & access products, handles, automotive safety, restraint systems, driver information and telematics systems for both OEMs and the aftermarket. VAST LLC also maintains branch offices in South Korea and Japan in support of customer sales and engineering requirements.

The VAST LLC investments are accounted for using the equity method of accounting and the results of the VAST LLC foreign subsidiaries and joint venture are reported on a one-month lag basis. The activities related to the VAST LLC joint ventures resulted in equity earnings of joint ventures to STRATTEC of \$487,000 during the three months ended September 29, 2019 and \$915,000 during the three months ended September 30, 2018. During the three months ended September 30, 2019 and September 30, 2018 no capital contributions were made to VAST LLC.

ADAC-STRATTEC LLC, a Delaware limited liability company, was formed in fiscal year 2007 to support injection molding and door handle assembly operations in Mexico. ADAC-STRATTEC LLC was 51 percent owned by STRATTEC and 49 percent owned by ADAC for all periods presented in this report. An additional Mexican entity, ADAC-STRATTEC de Mexico, is wholly owned by ADAC-STRATTEC LLC. ADAC-STRATTEC LLC's financial results are consolidated with the financial results of STRATTEC and resulted in increased net income to STRATTEC of approximately \$1.0 million during the three months ended September 29, 2019 and approximately \$575,000 during the three months ended September 30, 2018.

STRATTEC POWER ACCESS LLC ("SPA") was formed in fiscal year 2009 to supply the North American portion of the power sliding door, lift gate and deck lid system access control products which were acquired from Delphi Corporation. SPA was 80 percent owned by STRATTEC and 20 percent owned by WITTE for all periods presented in this report. The financial results of SPA are consolidated with the financial results of STRATTEC and resulted in increased net income to STRATTEC of approximately \$266,000 during the three months ended September 29, 2019 and approximately \$681,000 during the three months ended September 30, 2018.

SAL LLC was formed in fiscal 2013 to introduce a new generation of biometric security products based upon the designs of Actuator Systems LLC, our partner and the owner of the remaining ownership interest. SAL LLC was 51 percent owned by STRATTEC for all periods presented in this report. Our investment in SAL LLC, for which we exercise significant influence but do not control and are not the primary beneficiary, is accounted for using the equity method. The activities related to SAL LLC resulted in equity loss of joint ventures to STRATTEC of approximately \$3,000 during the three months ended September 29, 2019 and approximately \$6,000 during the three months ended September 30, 2018. During all periods presented in this report, 100 percent of the funding for SAL LLC was being made through loans from STRATTEC to SAL LLC. Therefore, for all periods presented in this report, even though STRATTEC maintains a 51 percent ownership interest in SAL LLC, STRATTEC recognized 100 percent of the losses of SAL LLC up to our committed financial support through Equity Earnings (Loss) of Joint Ventures in the accompanying Condensed Consolidated Statements of Income and Comprehensive Income. The business of SAL LLC has been wound down to sell only commercial biometric locks. See further discussion under Equity Earnings of Joint Ventures included in Notes to Condensed Consolidated Financial Statements herein.

Item 3 Quantitative and Qualitative Disclosures About Market Risk

Not applicable.

#### Item 4 Controls and Procedures

We maintain disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")), that are designed to ensure that information required to be disclosed in the Company's reports filed or submitted under the Exchange Act, are recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that the information required to be disclosed by the Company in reports that it files or submits under the Exchange Act are accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the end of such period, our disclosure controls and procedures were effective at reaching a level of reasonable assurance. It should be noted that in designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost benefit relationship of possible controls and procedures. We have designed our disclosure controls and procedures to reach a level of reasonable assurance of achieving the desired control objectives.

There was no change in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during our most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

#### Part II

#### Other Information

# Item 1 Legal Proceedings

In the normal course of business, we may be involved in various legal proceedings from time to time. We do not believe we are currently involved in any claim or action the ultimate disposition of which would have a material adverse effect on our financial statements.

#### Item 1A-Risk Factors

There have been no material changes to the risk factors disclosed in our Form 10-K as filed with the Securities and Exchange Commission on September 5, 2019.

Item 2 Unregistered Sales of Equity Securities and Use of Proceeds—

Our Board of Directors authorized a stock repurchase program on October 16, 1996, and the program was publicly announced on October 17, 1996. The Board of Directors has periodically increased the number of shares authorized for repurchase under the program, most recently in August 2008. The program currently authorizes the repurchase of up to 3,839,395 shares of our common stock from time to time, directly or through brokers or agents, and has no expiration date. Over the life of the repurchase program through September 29, 2019, a total of 3,655,322 shares have been repurchased at a cost of approximately \$136.4 million. No shares were repurchased during the three month period ended September 29, 2019.

Item 3 Defaults Upon Senior Securities—None

Item 4 Mine Safety Disclosures—None

Item 5 Other Information—None

#### Item 6 Exhibits

- (a) Exhibits
- 3.1 Amendment to Amended and Restated Articles of Incorporation of the Company
- 4.1 Amendment No. 6 to Credit Agreement, dated as of October 28, 2019, between STRATTEC SECURITY CORPORATION and BMO Harris Bank N.A., as lender (Incorporated by reference from Exhibit 4.1 to the Form 8-K report filed on October 28, 2019)
- 4.2 Amendment No. 7 to Credit Agreement, dated as of October 28, 2019, between ADAC-STRATTEC LLC and BMO Harris Bank N.A., as lender (Incorporated by reference from Exhibit 4.2 to the Form 8-K report filed on October 28, 2019)
- 31.1 Rule 13a-14(a) Certification for Frank J. Krejci, President and Chief Executive Officer
- 31.2 Rule 13a-14(a) Certification for Patrick J. Hansen, Chief Financial Officer
- 32 (1) 18 U.S.C. Section 1350 Certifications
- The following materials from STRATTEC SECURITY CORPORATION's Quarterly Report on Form 10-Q for the fiscal quarter ended September 29, 2019 formatted in XBRL (eXtensible Business Reporting Language) and furnished electronically herewith: (i) Condensed Consolidated Statements of Income and Comprehensive Income; (ii) Condensed Consolidated Balance Sheets; (iii) Condensed Consolidated Statements of Cash Flows; and (iv) Notes to Condensed Consolidated Financial Statements. XBRL Instance Document the XBRL Instance Document does not appear in the Interactive Data File because its XBRL tags are embedded within the Inline XBRL document.
- The cover page from the Company's Quarterly Report on Form 10-Q for the quarter ended September 29, 2019, formatted in Inline XBRL (included in Exhibit 101).
- (1) This certification is not "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or incorporated by reference into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended.

# **SIGNATURE**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

Your **phone number** during the day: <u>262-951-4609</u>

**INSTRUCTIONS** (Ref. sec. 180.1006 Wis. Stats. for document content)

Please use BLACK ink. Submit one original to State of WI-Dept. of Financial Institutions, Box 93348, Milwaukee WI, 53293-0348, together with a **FILING FEE of \$40.00** payable to the department. Filing fee is **non-refundable**. (If sent by Express or Priority U.S. mail, please visit <a href="www.wdfi.org/contact\_us/">www.wdfi.org/contact\_us/</a> for current physical address). The original must include an original manual signature, per sec. 180.0120(3)(c), Wis. Stats. **NOTICE:** This form may be used to accomplish a filing required or permitted by statute to be made with the department. Information requested may be used for secondary purposes. If you have any questions, please contact the Division of Corporate & Consumer Services at 608-261-7577. Hearing-impaired may call 771 for TTY.

- A. State the name of the corporation (before any change effected by this amendment) and the text of the amendment(s). The text should recite the resolution adopted (e.g., "Resolved, that Article 1 of the articles of incorporation be amended to read: (enter the amended language). If an amendment provides for an exchange, reclassification or cancellation of issued shares, state the provisions for implementing the amendment if not contained in the amendment itself. If attaching pages, be certain to label them with the Article number.
- B. Enter the date of adoption of the amendment(s). If there is more than one amendment, identify the date of adoption of each. Mark (X) one of the three choices to indicate the method of adoption of the amendment(s).

By Board of Directors – Refer to sec. 180.1002 for specific information on the character of amendments that may be adopted by the Board of Directors without shareholder action.

By Board of Directors and Shareholders – Amendments proposed by the Board of Directors and adopted by shareholder approval. Voting requirements differ with circumstances and provisions in the articles of incorporation. See sec. 180.1003, Wis. Stats., for specific information.

By Incorporators or Board of Directors – Before issuance of shares – See sec. 180.1005, Wis. Stats., for conditions attached to the adoption of an amendment approved by a vote or consent of less than 2/3rds of the shares subscribed for.

C. Enter the date of execution and the name and title of the person signing the document. The document must be signed by one of the following: An **officer** of the corporation (or incorporator if directors have not been elected), or a courtappointed receiver, trustee or fiduciary. A director is **not** empowered to sign.

If the document is executed in Wisconsin, sec. 182.01(3) provides that it shall not be filed unless the name of the person (individual) who drafted it is printed, typewritten or stamped thereon in a legible manner. If the document is not executed in Wisconsin, enter that remark.

DFI/CORP/**4**(02/18) Use of this form is voluntary.

# CERTIFICATION OF CHIEF EXECUTIVE OFFICER PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002

# I, Frank J. Krejci, certify that:

- 1. I have reviewed this quarterly report on Form 10-Q of STRATTEC SECURITY CORPORATION;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
- (a) designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
- (b) designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
- (c) evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
- (d) disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):
- (a) all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
- (b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
