**STRATTEC SECURITY CORPORATION
REPORTS FISCAL 2013 FIRST QUARTER RESULTS**

Milwaukee, Wisconsin – October 25, 2012 -- STRATTEC SECURITY CORPORATION (NASDAQ:STRT) today reported operating results for the fiscal first quarter ended September 30, 2012.

Net sales for the Company's first quarter ended September 30, 2012 were \$70.8 million, compared to net sales of \$66.4 million for the prior year quarter ended October 2, 2011. Net income for the current year quarter was \$2,670,000, compared to net income of \$1,282,000 in the prior year quarter. Diluted earnings per share for the current year quarter were \$.78 compared to diluted earnings per share of \$.39 in the prior year quarter.

Overall sales to STRATTEC's largest customers increased in the current year quarter compared to the prior year quarter levels. Sales to Chrysler Group LLC were \$22.4 million in the current year quarter compared to \$19.8 million in the prior year quarter primarily due to higher customer vehicle production volumes. Sales to General Motors Company were \$15.1 million in the current year quarter compared to \$16.1 million in the prior year quarter. The decrease in sales was attributed to a combination of lost model programs offset by higher vehicle production on other models we supply. Sales to Ford Motor Company were \$9.6 million in the current year quarter compared to \$8.3 million in the prior year quarter due to higher vehicle production and new product content. Net sales to Hyundai/Kia were \$2.8 million in the current year quarter compared to \$3.8 million in the prior year quarter, primarily due to lower vehicle production in the current quarter.

The gross profit margin was 19.4 percent in the current year quarter compared to 17.3 percent in the prior year quarter. The higher gross profit margin in the current year quarter was attributed to higher customer vehicle production volumes which increased overhead absorption of STRATTEC's manufacturing costs, a favorable product content sales mix including new products, the Company's ongoing cost reduction initiatives and a favorable Mexico peso to U.S. dollar exchange rate affecting the Company's operations in Mexico.

Operating expenses were \$9.1 million in the current year quarter compared to \$8.2 million in the prior year quarter. The increase in these expenses was primarily attributed to increased product development costs, higher medical costs and higher expense provisions for both our pension plan and for the accrual of bonuses earned under our incentive bonus plans.

Other expense significantly declined to \$18,000 in the current quarter compared to \$868,000 in the prior year quarter. Included in other expense are primarily foreign currency transaction gains and losses realized during the applicable period and unrealized gains and losses relating to the Mexican peso. During the later part of the prior year quarter, the Mexican peso devalued significantly to the US dollar creating both transaction gains and unrealized losses on our Mexican peso currency option contracts. These events were the principal contributors to the year over year difference in the quarterly results.

Frank J. Krejci, President & CEO commented: “The outlook for the North American vehicle build continues to be encouraging. Our improving results reflect recent market growth as well as the progress that our teams are making both within STRATTEC and within our VAST global partnerships. I appreciate their efforts in supporting our customers and making a difference within our organization.”
